All Elected Officials and Chief Administrative Officers**

**Winnipeg Pipeline Repair Event**

Manitoba EMO is coordinating the Manitoba government's response to Imperial Oil Ltd.'s ongoing maintenance work on a pipeline that runs between Gretna and a Winnipeg terminal that provides gasoline, diesel, and jet fuel to customers in Winnipeg and the surrounding area.

Imperial Oil's decision to shut down the pipeline and undertake repairs was made after preventative maintenance and proactive pipeline inspections identified integrity concerns in a section of pipe just south of St. Adolphe. The line was not compromised, and no materials were spilled into the environment. The province is engaged in oversight of the repair work to ensure necessary precautions are taken to protect the surrounding environment.

The Manitoba government issued a [Petroleum Bulletin](#), which contains additional details on this event. Additional bulletins may be issued as the situation evolves.

Manitoba EMO advises you to reach out to your Regional Emergency Manager should you have additional questions about this work.
