

Bulletin #2024-17

MUNICIPAL AND NORTHERN RELATIONS

**Important Notice to
Chief Administrative Officers**

**Information on Proposed Pipeline Assessment
Methodology**

On April 25, 2024, Manitoba held an information session on the potential changes to pipeline assessment methodology for all municipalities. As a follow up to that consultation, Property Assessment Services Branch (PASB) is now making the presentation available to all municipalities. A copy of the presentation is attached to this bulletin for your reference.

Further information about the proposed methodology and impact to each individual municipality will be provided in the tax impact meetings scheduled from May to June 2024. Chief Administrative Officers are encouraged to share the preliminary information with their Councils to prepare for a detailed consultation at the time of tax impact meeting.

Any questions regarding the proposed methodology or tax impact meetings can also be directed to assessment@gov.mb.ca
