

Bulletin #2026-25

MUNICIPAL AND NORTHERN RELATIONS

**Important Notice to
All Elected Officials and Chief Administrative Officers**

**BASELINE CYBERSECURITY SURVEY OF
MUNICIPALITIES**

Municipal and Northern Relations has prepared an online survey of municipalities to collect information about their information technology assets and their current cybersecurity practices. The survey will be available until August 31.

Please ensure that your municipality submits a response to the survey. You can access the survey online at: <https://forms.office.com/r/g2iCvivUji>.

This survey is in response to the 2025 Auditor General's report regarding municipalities and the Department. Information about that report and its recommendations for municipal cybersecurity practices was provided in bulletin #2025-26.

Developing a baseline understanding of municipalities' information technology and cybersecurity environment was one of the actions Municipal and Northern Relations committed to in response to the report.

All municipalities are encouraged to fill out the survey as completely as possible. Data from municipalities will be kept confidential.

Municipal data will be used to help guide the development of any future resources or supports for municipalities on this subject.
