

North Steeprock Lake Provincial Park

Campground Tips

- Be Wildlife Smart. Do not feed any wildlife, including birds or squirrels. You are in black bear country secure all attractants such as food, cooking equipment and trash in a locked vehicle. Do not store food or attractants in your tent.
- Practice Leave No Trace.
 Pack out all gear and trash to keep the campsites clean for others.
- Keep dogs on leash and clean up after your pet.
- Learn to recognize and avoid poisonous plants such as poison ivy.
- Open fires are prohibited.
 Use portable stoves or fire pits provided.
- Don't Move Firewood -Moving firewood can spread harmful invasive species and destroy our forests.
- Prevent the spread of aquatic invasive species.
 Always clean, drain, dry watercraft and water related equipment. Visit manitoba.ca/stopais for full regulations.
- In case of injury or illness contact a Park Attendant or Park Patrol Officer. They can assist you to reach medical help.
- Full camping regulations are available in the Campers Guide, available from park offices and online at manitobaparks.com.

Enjoy a region of forested uplands and clear lakes

A combination of pristine habitats makes North Steeprock Lake Campground in Porcupine Provincial Forest a haven for large mammals. The "mountain" is the northern most segment of the Manitoba Escarpment in our province. Enjoy a region of forested uplands and clear lakes. The campground is made up of 35 nightly and seasonal sites. Enjoy the nearby beach and playgrounds. At North Steeprock, anglers typically catch northern pike and walleye. In the fall there are good catches of whitefish. Vini Lake, just west of Steeprock produces arctic char and rainbow trout.

Similar to Nopiming in eastern Manitoba, North Steeprock Lake is a great place to view vegetation recovery after a fire. In the spring of May 1980, a blaze began across the border in Saskatchewan.

Today the areas burned on the southwestern and central parts of Porcupine hills are lush with young Jack pine and spruce on the uplands, and mixed aspen, birch and juvenile Jack pine on the slopes. The ravaged forest area is now home to moose and white-tailed deer. Canadian geese and sandhill cranes fill the skies during spring migration in May.

North Steeprock Lake Campground is located north of Birch River. Turn west from PTH 10 and continue on PR 365 beyond Bell Lake.
