

Norris Lake Provincial Park

Campground Tips

- Be Wildlife Smart. Do not feed any wildlife, including birds or squirrels. You are in black bear country - secure all attractants such as food, cooking equipment and trash in a locked vehicle. Do not store food or attractants in your tent.
- Practice Leave No Trace. Pack out all gear and trash to keep the campsites clean for others.
- Keep dogs on leash and clean up after your pet.
- Learn to recognize and avoid poisonous plants such as poison ivy.
- Open fires are prohibited. Use portable stoves or fire pits provided.
- Don't Move Firewood - Moving firewood can spread harmful invasive species and destroy our forests.
- Prevent the spread of aquatic invasive species. Always clean, drain, dry watercraft and water related equipment. Visit manitoba.ca/stopais for full regulations.
- In case of injury or illness contact a Park Attendant or Park Patrol Officer. They can assist you to reach medical help.
- Full camping regulations are available in the Campers Guide, available from park offices and online at manitobaparks.com.

- Launch a canoe or cast off from the scenic shores of Norris Lake

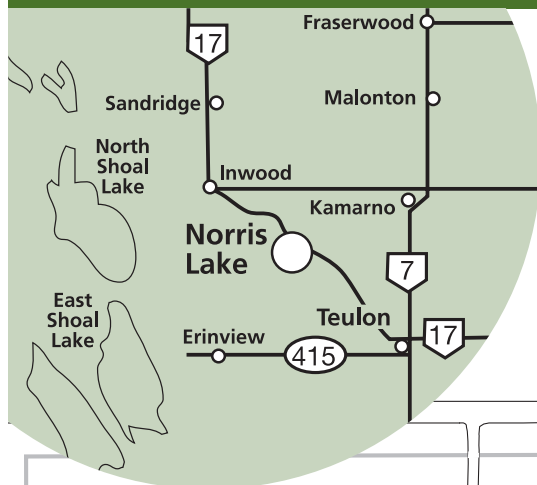

The vibrant and picturesque Interlake region is home to Norris Lake Provincial Park Campground. It offers 15 basic sites and three group-use sites for overnight camping and day use. These private group sites overlook the lake and are surrounded by oak and poplar trees. These sites also offer a good location to launch a canoe or park a boat on the scenic shore. Visitors can enjoy a variety of activities including fishing for northern pike, waterskiing and swimming. If you enjoy golfing, nearby Teulon and Inwood offer golf courses.

Near Norris Lake, you will find the Narcisse Wildlife Management Area. Here, you can see more snakes at a glance than anywhere else in the world. In the spring, thousands of red-sided garter snakes emerge from limestone sinkholes and tangle together during a fascinating mating ritual. The snakes then disperse to the nearby marshes for the summer, returning to their dens in the fall.
