Section 1.0 Introduction

Cottage lots in listed Crown land and Provincial Park subdivisions are being made available for sale or lease under this program in accordance with the rules outlined in this document. Interested applicants are strongly encouraged to visit and inspect the lot that interests them prior to submitting an application.

The listing of available lots can be found on our website (www.manitoba.ca/conservation/cottaging/index.html) or in the document titled First-Come, First-Served Cottage Lot Program Lot Availability. Subdivision information and mapping can also be found on our website.

Except for development of roads, hydro, and certain other site-specific improvements, subdivisions are generally provided in their natural state, with future lot clearing and development being the responsibility of the purchaser or lessee.

Take appropriate precautions when visiting a subdivision or inspecting a lot. The Manitoba government is not responsible for any damage to personal property, or loss or injury incurred while accessing and inspecting subdivisions. Some general safety tips:

- Wear appropriate footwear and clothing.
- Be wary of natural hazards such as hanging trees and branches.
- In some instances construction and/or survey work may be in progress. Keep clear of work crews and construction equipment.
- Do not smoke while visiting sites as there may be brush piles, dead grass, and trees that pose a natural fire hazard. Forests are particularly susceptible to fire during dry periods.

Prior to inspection, applicants may wish to contact the Land Manager at the Regional Conservation and Water Stewardship office for details on the state of the area for Crown cottage lots and the District Park Supervisor for Provincial Park cottage lots. Please check our website (www.gov.mb.ca/conservation/fcfs_cottaging/index.html) for subdivision specific contact information.
Section 2.0 Lots Available for Sale and Lease

Cottage lots that have been offered for sale or lease through previous public draws under the Cottage Lot Program, but were not selected are being made available on a first come, first served basis.

Cottage lots that have been selected once in a previous public draw but subsequently became available for re-allocation due to cancellation, termination or failure to enter into a purchase or lease agreement, shall be reserved until the next scheduled public draw. If the lots are not selected in that next draw, they may then be made available on a first come, first served basis.

Cottage lots acquired by applicants under this program that subsequently become available for purchase or lease due to cancellation, termination or failure to enter into a purchase or lease agreement shall be added back into inventory and will be made available for first come, first served applications.

For a listing of available lots, please refer to the document titled First-Come, First-Served Cottage Lot Program Lot Availability.

The Manitoba government reserves the right to remove any lots from the First-Come, First-Served Cottage Lot Program at any time for any reason.

Email: lto@tprmmb.ca

Also, if the cottage subdivision is located within a rural municipality (RM), the applicant will be responsible for payment of annual municipal taxes to the RM.

If the cottage subdivision is located outside of an RM, there may be taxes or service fees assessed through Manitoba Aboriginal and Northern Affairs. For more information, contact:
  
Northern Region: 204-679-6579 or
North Central Region: 204-622-2363

Section 8.0 Construction Of Cottages

The development time frame requirement is waived for the Crown land lots offered for sale through the First-Come, First-Served Cottage Lot Program. See Section 9.0 - Title Transfer for more information.

It is a condition of the Lease Agreement (Parks) that the applicant must construct a cottage and complete the exterior of the cottage to “lock-up stage” within two years.

The date will be set out in the Lease Agreement indicating when the two-year time frame begins.

A cottage is considered to be completed to lock-up stage when doors, windows, finished exterior siding, and shingles or other roofing material have been installed.

Provincial Parks

Construction of cottages and vacation homes in Provincial Parks must comply with “The Cottager’s Handbook” available at:

Individual lots offered for lease may not be combined or amalgamated with adjacent lots for the purposes of creating a joint or “double lot”. One suitable cottage or vacation home is required on each lot.

Development Time Frame Extension Requests

Failure of the applicant to construct a cottage or vacation home to lock-up stage prior to the deadline may result in the termination of the Lease Agreement. However a lessee may apply for an extension of the development time frame if there were valid extenuating circumstances that occurred that prevented completion of construction to lock-up stage. The granting of an extension is at the sole discretion of the Manitoba government.
Crown Lands
The construction of cottages and vacation homes must comply with all applicable legislation, regulations, building standards and zoning by-laws that can be obtained from the local rural municipality office, Aboriginal and Northern Affairs or the Office of the Fire Commissioner.

The sale of lots is for the purposes of the development of a cottage only. The purchaser shall construct the cottage in accordance with the applicable Rural Municipalities building time restrictions, if any. The purchaser also agrees not to park a trailer, travel trailer, fifth wheel, or erect a tent on the lot for use as a cottage.

Individual lots offered for sale or lease may not be combined or amalgamated with adjacent lots for the purposes of creating a joint or “double lot”. One suitable cottage or vacation home is required on each lot.

If the lot falls within a Rural Municipality, the purchaser may provide a site plan, with a Building Permit Application to the local municipal office.

If the lot falls within Aboriginal and Northern Affairs jurisdiction, the purchaser may provide a site plan, with a Building Permit Application to the Office of the Fire Commissioner for further review.

The site plan should show approximate dimensions of the building(s), location on the lot and distances in relation to lot boundaries. The purchaser will be notified if the site plan is approved or if changes are required.

A Work Permit may be required to manage debris created by lot clearing work. All debris is to be managed appropriately to eliminate fire hazards and not create a nuisance to adjacent lot owners. All merchantable timber such as firewood must be salvaged. Disposal of lot debris may vary depending upon your subdivision and time of year. Please contact your local Manitoba Conservation and Water Stewardship office to determine if burning is allowed or where debris can be hauled.

Section 9.0 Title Transfer
Upon entering into a Conditional Sale Agreement for the purchase of a lot and payment of the lot price and associated fees, the purchaser’s lawyer will be issued a Transfer Document. The lawyer can file the Property Registry Application to the Land Titles Office to register title in the name of the purchaser.

Section 10.0 Lot Pricing
Lots in the First-Come, First-Served Cottage Lot Program are based on current appraised values as determined by an accredited Manitoba appraiser or other method of fair market valuation as determined by the Minister at the time they are placed in the First-Come, First-Served Cottage Lot Program. Lot prices are not negotiable.
Section 11.0 Representations and Warranties

The acceptance of an application by the province of Manitoba does not constitute a binding Agreement for the sale or lease of the Crown lot.

The province makes no warranties or representations, except those stated in the Conditional Sale Agreement or Lease Agreement, and the applicant acknowledges reliance solely on the applicant’s own knowledge and inspection of the Crown land and that the applicant has not received or relied on any representations or warranties made with respect to the Crown land.

In particular, the applicant acknowledges that the province of Manitoba makes no representations or warranties to the applicant as to the fitness of any of the Crown land for any particular purpose.

Section 12.0 Revisions to Printed Package

The province has made every effort to ensure the information provided is accurate and complete. If errors are discovered after publication of the handouts and website, the website will be corrected and a notice of correction will be placed on the home page of the website.
