AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION
UNDER THE CLEAN ENVIRONMENT ACT

RE: THE CLEAN ENVIRONMENT COMMISSION and THE VILLAGE OF ETHELBERT, Applicant,

WHEREAS on the 8th day of April, 1968, the sewage lagoon serving the
unincorporated Village of Ethelbert was licenced by The
Provincial Sanitary Control Commission under the provisions of
the Pollution of Waters Prevention Act;

AND WHEREAS Pursuant to the provisions of The Clean Environment Act, the
Village of Ethelbert filed a registration with the department in
connection with the operation of a sewage lagoon system located
in the SW 1/4 of Section 32, Township 29, Range 21 WPM in the
Rural Municipality of Ethelbert, Manitoba, with discharge of
effluent to Shanty Creek;

AND WHEREAS in the absence of limits, terms and conditions set by a
regulation, the proposal was referred to The Clean Environment
Commission to set limits, terms and conditions;

AND WHEREAS after giving notice of its intention to set limits, terms and
conditions, the Commission did not receive notice of
representation from any person who was likely to be affected;

AND WHEREAS the Commission considered the operation on the 15th day of
January, 1988;

IT IS HEREBY ORDERED THAT

1. The Applicant shall not discharge effluent from the said
   sewage lagoon system

   (a) where the organic content of the effluent as indicated
       by the five day biochemical oxygen demand, is in excess
       of 30 milligrams per litre;

   (b) where the faecal coliform content of the effluent as
       indicated by the MPN index, is in excess of 200 per 100
       millilitres of sample;
1. (c) where the total coliform content of the effluent as indicated by the MPN index, is in excess of 1500 per 100 millilitres of sample;

(d) between the 1st day of November of any year and the 15th day of May of the following year.

2. The Applicant shall operate and maintain the said sewage lagoon system in such a manner that:

(a) the release of offensive odours is minimized;

(b) the organic loading on the primary cell of the said sewage lagoon system, as indicated by the five day biochemical oxygen demand, is not in excess of 56 kilograms per hectare per day.

Order No. 1142

Dated at the City of Winnipeg
this 18th day of January, 1988.

Chairperson,
The Clean Environment Commission.
