Manitoba

Licence No./Licence n° 2432

Issue Date/Date de délivrance November 16, 1999

**IN ACCORDANCE WITH THE MANITOBA ENVIRONMENT ACT (C.C.S.M. c. E125)  
THIS LICENCE IS ISSUED PURSUANT TO SECTION 11(1) TO:**

**MANITOBA DEPARTMENT OF CONSERVATION AS REPRESENTED BY  
THE WATER RESOURCES BRANCH; "the Licencee"**

for the construction and operation of the Development being a flood protection system consisting of a ring dyke and a floodway diversion of the Morris River and related works located in and near Rosenort in the Rural Municipality of Morris, in accordance with the Proposal filed under The Environment Act and dated September 4, 1998, and subject to the following specifications, limits, terms and conditions:

**GENERAL TERMS AND CONDITIONS**

This Section of the Licence contains requirements intended to provide guidance to the Licencee in implementing practices to ensure that the environment is maintained in such a manner as to sustain a high quality of life, including social and economic development, recreation and leisure for present and future Manitobans.

1. The Licencee shall ensure that all used oil products and other regulated hazardous wastes generated by the machinery used in the construction and operation of the Development are collected and disposed of in accordance with applicable Manitoba Conservation and legislation requirements.
2. The Licencee shall ensure, during and after construction of the Development, that all necessary measures are taken to prevent the erosion of fill and its deposition in natural or constructed waterways near the Development.
3. The Licencee shall revegetate areas disturbed by the construction of the Development with a mixture of native or introduced grasses or legumes. Native vegetation shall be used to revegetate areas where native vegetation existed prior to the construction of the Development. Disturbed areas shall be revegetated as quickly as possible following construction to prevent soil erosion and the establishment of noxious weeds.
4. The Licencee shall rehabilitate and revegetate all borrow areas associated with the Development which are not incorporated in related drainage works. These isolated borrow areas shall be graded and shaped so as not to present a safety hazard or nuisance to adjacent property owners or other members of the public.
