AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION  
UNDER THE CLEAN ENVIRONMENT ACT

Re: The Clean Environment Commission and Beausejour Hospital, applicant.

WHEREAS pursuant to the provisions of The Clean Environment Act, Plibrico (Canada) Limited has submitted an application on behalf of the Beausejour District Hospital No. 29 to the Clean Environment Commission requesting the Commission to prescribe limits in connection with the operation of an incinerator located on the premises of the said Hospital at 150 1st Street South in the Town of Beausejour,

AND WHEREAS no representation was made to the Clean Environment Commission by any person who is or is likely to be affected by an order of the Commission prescribing limits in connection with said operation,

AND WHEREAS the Clean Environment Commission considered the application on the 8th day of January 1973 and again on the 27th of February 1973,

IT IS HEREBY ORDERED THAT:

1) The applicant shall ensure that:

\*

- a. the incinerator is charged only with Type 1 waste or an admixture of Type 1 Waste and pathological tissue consisting of tonsils, adenoids and placenta, and
- b. the admixture of Type 1 Waste and pathological tissue is such that the requirements of clauses 2) and 3) will be met, and
- c. no offensive condition arises due to the incineration of pathological waste,

\*\*

- 2) The applicant shall ensure that the incinerator is operated in such a manner that the visible emissions are limited to a density of not more than number two on the Ringelmann Smoke Chart for a period or periods totalling not more than four minutes in one half hour, nor more than eight continuous minutes at any time at the point of emission,
- 3) The applicant shall ensure that solid products of combustion from the incinerator do not exceed 0.57 grams per standard cubic meter calculated at 20 degrees Centigrade and 760 millimetres of mercury (0.25 grains per standard cubic foot calculated at 68 degrees Fahrenheit and 30 inches of mercury) with a carbon dioxide content of twelve per centum at the point of emission.

ENVIRONMENTAL  
PROTECTION

Order No. 256

Dated at this City of Winnipeg  
this 13th day of April 1973.

Chairman,  
Clean Environment Commission

- \* Type I Waste - rubbish, a mixture of combustible waste such as paper cardboard cartons, wood scrap, foliage and combustible floor sweepings from domestic, commercial and industrial activities. The mixture contains up to 20% by weight of restaurant or cafeteria waste, but contains little or no treated papers, plastic or rubber waste.

Incinerator Institute of America - Standards 1968.

- \*\* Ringelmann Smoke Chart - as per the United States Bureau of Mines.
