AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION

UNDER THE CLEAN ENVIRONMENT ACT

Re: The Clean Environment Commission and the Hanover School Division No. 15, applicant,

WHEREAS pursuant to the provisions of The Clean Environment Act, Hanover School Division No. 15, Steinbach, Manitoba has submitted an application to the Clean Environment Commission in connection with the operation of an incinerator located on the premises of the Steinbach (formerly Southeastern) Regional Secondary School on Lot 15 on McKenzie Road, Plan 11504 in the Town of Steinbach,

AND WHEREAS no representation was made to the Clean Environment Commission by any person who is or is likely to be affected by an Order of the Commission prescribing limits in connection with said operation,

AND WHEREAS the Clean Environment Commission considered the application on the 14th day of May, 1973,

IT IS HEREBY ORDERED THAT

1. The applicant shall ensure that only Type 2 Waste is charged to the incinerator,

2. The applicant shall ensure that the incinerator is operated in such a manner that the visible emissions are limited to a density of not more than number two on the Ringelmann Smoke Chart for a period or periods totalling not more than four minutes in one half hour, nor more than eight continuous minutes at any time at the point of emission,

3. The applicant shall ensure that the emissions of solid particulate matter from combustion in the incinerator do not exceed 0.57 grams per standard cubic meter, calculated at 20 degrees Centigrade and 760 millimetres of mercury (0.25 grains per standard cubic foot calculated at 68 degrees Fahrenheit and 30 inches of mercury) with a carbon dioxide content of twelve per centum at the point of emission.

Order No. 299

Dated at the City of Winnipeg this 11th day of July 1973

Chairman,
Clean Environment Commission

C-b-538
* Type 2 Waste — refuse, consisting of an approximately even mixture of rubbish and garbage by weight. (Incinerator Institute of America 1968 Standards).

** "Ringelmann Smoke Chart" — means the Ringelmann Smoke Chart published by the United States Bureau of Mines and used in accordance with the instructions published by the said Bureau. Smoke density may also be measured by any other instrument which can be correlated with the standard Ringelmann Smoke Chart.
