AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION
UNDER THE CLEAN ENVIRONMENT ACT

RE: THE CLEAN ENVIRONMENT COMMISSION and JOHN FOSTEY, ESQUIRE, Applicant,

WHEREAS pursuant to the provisions of The Clean Environment Act, John Fostey, Esquire, filed an application with the Department of Mines, Resources and Environmental Management in connection with the operation of a plant for the preparation, smoking and cooking of sausages and meat products known as Fostey's Fancy Sausages located at or near 650 Golspie Street in the City of Winnipeg;

AND WHEREAS in the absence of limits being prescribed by a Regulation under the said Act, the said application was referred to the Clean Environment Commission for the prescribing of limits;

AND WHEREAS no representations were made to the Commission by any person who is or who is likely to be affected by an Order of the Commission prescribing limits in connection with the operation;

AND WHEREAS the Commission considered the application on the 14th day of June, 1976;

IT IS HEREBY ORDERED THAT

1. The Applicant shall ensure that solid particulate emissions from any process of the operation do not at any time exceed 0.23 grams per standard cubic metre, calculated at 25 degrees Celsius and 760 millimetres of mercury, at the point of emission.

2. The Applicant shall ensure that visible smoke emission from the said operation do not exhibit an opacity in excess of:

   (a) 20 percent (equivalent to number 1 on the Ringelmann Smoke Chart*) for a period exceeding 4 minutes in any one hour;

   (b) 40 percent (equivalent to number 2 on the Ringelmann Smoke Chart*) at any time, at the point of emission.
3. The Applicant shall ensure that a program of good housekeeping and equipment maintenance is carried out at all times commensurate with meeting the limits prescribed in Clauses 1 and 2 of this Order.

Order No. 612

Dated at the City of Winnipeg
this 9th day of July, 1976

Chairman,
The Clean Environment Commission.

C-b-1112

* Ringelmann Smoke Chart means the Ringelmann Smoke Chart published by the United States Bureau of Mines and used in accordance with the instructions published by the Bureau. Smoke density may also be measured by any other instrument which can be co-related with the Standard Ringelmann Smoke Chart.
