AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION
UNDER THE CLEAN ENVIRONMENT ACT

RE: THE CLEAN ENVIRONMENT COMMISSION and the DEPARTMENT OF NATURAL RESOURCES,
Applicant,

WHEREAS pursuant to the provisions of The Clean Environment Act,
Mr. T. E. Weber, on behalf of the Department of Tourism, Recreation
and Cultural Affairs, submitted an application on the 30th day of
August, 1971, to The Clean Environment Commission to prescribe limits
in connection with the operation of a sewage lagoon system located in
the SW¼ of Section 8-23-28 WPM in Assiniboia Provincial Park, serving
recreational facilities in the said Park, with discharge of effluent
to the Shellmouth Reservoir in the Province of Manitoba;

AND WHEREAS the Commission issued Ordinary Licence No. 198, hereinafter referred
to as Order No. 198, on the 7th day of September, 1972, prescribing
limits in connection with the said operation;

AND WHEREAS Order No. 198 terminated on the 7th day of September, 1977;

AND WHEREAS the Department of Tourism, Recreation and Cultural Affairs filed an
application on the 12th day of September, 1977, with the Department
of Mines, Resources and Environmental Management in connection with
the continued operation of the said sewage lagoon system;

AND WHEREAS subsequent to the filing of the said application, responsibility for
the operation was transferred to the Department of Natural Resources;

AND WHEREAS in the absence of limits being prescribed by a Regulation issued
under the said Act, the application was referred to the Commission
for the prescribing of limits;

AND WHEREAS no representations were received from any person who is or who may
be affected by an order of the Commission prescribing limits in
connection with the said operation;

AND WHEREAS the Commission considered the application on the 26th day of
November, 1979;
IT IS HEREBY ORDERED THAT

1. On and after the 1st day of July, 1980, the Applicant shall not permit the hydraulic conductivity of the interior of the said sewage lagoon system to exceed $10^{-7}$ centimeters per second over the entire lagoon system.

2. The Applicant shall not permit the organic loading on the primary cell of the said sewage lagoon system to exceed 56 kilograms per hectare per day.

3. The Applicant shall not permit the discharge of effluent from the said sewage lagoon system where the organic content of the effluent is, as indicated by the five-day biochemical oxygen demand, in excess of 30 milligrams per litre.

4. The Applicant shall not permit the discharge of effluent from the said sewage lagoon system where the fecal coliform is, as indicated by the MPN index, in excess of 200 per 100 millilitres of sample.

5. The Applicant shall not permit the discharge of effluent from the said sewage lagoon system between the 1st day of November of any year and the 1st day of September of the following year.

Order No. 861

Dated at the City of Winnipeg
this 18th day of December, 1979.

Chairman,
The Clean Environment Commission
