Dear Cynthia Wiebe and Michelle Paetkau:

Re: North End Water Pollution Control Centre – Environment Act Licence No. 2684 RRR - Interim Phosphorous Reduction Plan - Quarterly Progress Report Acknowledgement

Thank you for the July 26 and October 27, 2021 quarterly progress reports regarding the interim phosphorus reduction plan implementation at the North End Water Pollution Control Centre (NEWPCC).

Given the project was still in early stages following the May 28, 2021 notice of alteration approval, I have accepted the July 26, 2021 progress report as submitted. The October 27, 2021 quarterly progress report includes some of the details expected following the notice of alteration approval. However, there are additional details needed in order for the department to properly assess progress of the plan, including accurate information on start and completion dates of identified activities and milestones.

In addition, there are some discrepancies and inconsistencies noted in this report as compared to the prior monthly progress reports. For example, the October 7 monthly report indicated 100% completion of consultant RFP, whereas the October 27 quarterly report indicated that the same component was 50% completed. Please ensure that these discrepancies are corrected beginning with the January 2022 quarterly report.

Should you have any questions regarding this letter, or have questions on the details needed in future reports, please contact Bereket Assefa, Senior Environmental Engineer, Environmental Approvals Branch, at Bereket.Assefa@gov.mb.ca or 204-330-4613.

Sincerely,
