Dear Tim Shanks:

**Re: North End Water Pollution Control Centre – Environment Act Licence
No. 2684 RRR – Notification Acknowledgement**

Thank you for the notifications dated April 7, 2025 and April 23, 2025, regarding ongoing upgrades to the North End Water Pollution Control Centre. The April 7 notification included your decision to switch from thermal hydrolysis to thermophilic digestion in the design of the biosolids treatment facilities. The April 23 notification included your decision to implement the phosphorous recovery system as part of the nutrient removal facilities rather than the biosolids treatment facilities.

Please ensure that these changes are reflected in future progress reports and record drawings/site plans as applicable.

If you have any questions on this matter, please contact Siobhan Burland Ross, Engineering Manager, Environmental Approvals Branch, at 204-793-6487 or Siobhan.BurlandRoss@gov.mb.ca.

Sincerely,

Original Signed By
Agnes Wittmann
