Attention: Director

Environmental Approvals Branch
Manitoba Environment, Climate, and Parks
1007 Century Street
Winnipeg, MB R3H 0W4

Dear Director,

Reference: R3 Innovations Inc. –Notice of change in ownership and operations responsibility at R3 Innovations Inc. removing the town of Neepawa as a responsible party for EAL 2870 RRR

R3 Innovations Inc. was established in XXXX as a joint venture between HyLife Foods LP and the town of Neepawa to establish an industrial wastewater treatment facility intended to treat all wastewater produced at the HyLife Foods pork processing. This joint venture was established as a 50/50 partnership and from the onset was intended to transfer full ownership of the IWWTF to HyLife Foods at some point in the future.

In December, 2024, ownership of the R3 Innovations IWWTF has now been fully transferred to HyLife Foods LP through the transfer of the Town of Neepawa share in the facility to HyLife Foods LP. Throughout the tenure of the R3 Innovations IWWTF, operations responsibility, control, and costs associated with the facility has been borne by HyLife Foods LP. With the subsequent change in ownership, no changes will be experienced in the management and control of the facility.

Please find attached the R3 – Shareholders Register that indicates that both common shares of R3 Innovations Inc are held by HyLife Foods LP as of January 16, 2024. This indicates that total ownership of the R3 Innovations facility is held by HyLife Foods LP and as such, we respectfully request that the Town of Neepawa be removed from Environment Act Licence No. 2870 RRR and any further communications and matters related to the facility be directed to Sheldon Stott, HyLife Foods LP.

Should you require any additional information or clarifications please do not hesitate to contact Mr. Sheldon Stott, P.Ag., Senior Director of Corporate Sustainability, HyLife Foods LP.

Regards,

Sheldon Stott, P.Ag. Senior Director of Corporate Sustainability
