Dear Ms. Sheppard:

**Re: Canadian Kraft Paper Industries Ltd. – Notice of Alteration to Licence 1339 RR**

Thank you for the Notice of Alteration submitted on July 2, 2019 and additional information provided on August 6, 2019 that proposes the following alterations at your Canadian Kraft Paper Industries Ltd. facility located at The Pas, Manitoba:

1. to install a bypass line for the clarifier so that the influent from the pulp and paper mill sewers will be directly discharged to the settling basin.
2. to perform a pilot study on the feasibility of burning the sludge mixed with hog fuels into the power boiler.

I have reviewed the proposed alteration and concluded that the environmental effects from the alteration are insignificant; and, therefore, in accordance with Section 14(2) of The Environment Act you are hereby authorized to carry out the proposed alteration as described in the July 2, 2019 Notice of Alteration and additional information provided on August 6, 2019. This approval is conditional on the following requirements:

1. The influent bypass is approved to facilitate the effluent clarifier refurbishing.
2. If the pilot study of utilizing the sludge mixed with hog fuels in the power boiler is successful, a potential change in the power boiler stack emission will be assessed in the upcoming stack emission schedule of the facility.

If you have any questions regarding this matter please contact Cristal Huculak, Regional Supervisor, at (204) 627-8248.

Yours sincerely,

Siobhan Burland Ross, M. Eng., P. Eng.  
Director  
The Environment Act
