RE: Notification regarding transfer of revised Environment Act Licence Number 1331 RRR

To whom it may concern,

The Manitoba Department of Sustainable Development ("**Department**") issued the above noted revised Environment Act Licence ("**Licence**") to Agrium Products Inc. for the continued operation of a bulk anhydrous ammonia storage and bulk granular fertilizer storage facility located in the Rural Municipality of Portage la Prairie.

Agrium Inc. and certain of its wholly-owned and controlled entities, including Viridian Inc., Agrium Products Inc., and the Agrium general partnership are planning to complete an internal reorganization (such transactions collectively referred to as the "**Reorganization**").

Upon completion of the Reorganization, which presently has an anticipated completion date of on or about July 1, 2017, the Licence will be transferred to Agrium Inc. As a result of this transfer, Agrium Inc. would replace Agrium Products Inc. as the holder of the Licence, and would thereafter be bound by the terms and conditions of the Licence.

Agrium Products Inc. hereby wishes to notify the Department of the Reorganization and the resulting transfer of the Licence, and respectfully requests that Agrium Inc. be identified as the owner of the Licence effective July 1, 2017.

Should you require additional information or have any questions, please do not hesitate to contact Marc Belisle at 204-252-2711 or at marc.belisle@agrium.com.

Thank you for your cooperation in this matter.

Very truly yours,

AGRIUM PRODUCTS INC.
