Phillip Tshetter
Blue Clay Farms 98 Ltd.
Box 23
Arnaud MB R0A 0B0

Dear Mr. Tshetter:

**Re: Blue Clay Farms 98 Ltd. – Wastewater Treatment Lagoon Discharge Alteration
Environment Act Licences No. 1542 and 1542 R**

This is in response to your Notice of Alteration of October 12, 2018. The requested alteration was to discharge effluent from the Colony's existing wastewater treatment lagoon to a drain leading to the Arnaud Creek and the Marsh River, following the requirements of Environment Act Licence No. 1542 R, issued for the Colony's expanded wastewater treatment lagoon.

We have reviewed the proposed alteration and have determined that the environmental effects of the alteration are insignificant. The alteration can therefore be approved pursuant to Section 14(2) of The Environment Act. Approval to implement the alteration is hereby provided. In addition to the change in effluent discharge method, approval is also provided to extend the effluent discharge period provided in Clause 24 f) of Environment Act Licence No. 1542 R to and including November 15, 2018.

This approval of an altered discharge method and discharge period is provided for this occasion only and does not apply beyond November 15, 2018.

Yours sincerely,

Tracey Braun, M.Sc.
Director
Environmental Approvals Branch
