Good afternoon, Dale,

After initial review of your notice of alteration application, some additional information is required. Please provide:

- A description of the products to be stored in the new space;
- Estimated maximum volume of products to be stored;
- A description of the exterior secondary containment - including it's size, the volume of containment and how it is constructed;
- Engineered drawings of the building; and
- A general description of the fire safety plan

If you have any questions, please contact me. Thank you
