RE: Request to Extend Environment Act Licence 2191 E

Dear James Capotosto:

Louisiana-Pacific Canada Ltd. (LP) writes to request an extension to the terms and conditions of Environment Act Licence 2191 E to December 31, 2023 pursuant to section 14(2) of *The Environment Act*. Crown-Indigenous consultation with Indigenous communities is ongoing but not yet complete in relation to LP's 20-year Forest Management Plan (FMP) and associated authorizations.

The extension to the Environment Act Licence 2191 E would allow LP to continue to operate and the Government of Manitoba to complete the consultation process and make a decision on the FMP, Environment Act Licence, and associated authorizations in 2023.

Sincerely,

Todd Yakielashek
