

27<sup>th</sup> June 27, 2016

Dear Tracey,

**Re: Addendum to Notice of Alteration Request, Global Grain Canada LTD Environment Act Licence No. 2401**

In response to your letter dated October 21, 2015, File No: 4434.00, **Re: Notice of Alteration Request – ILTA Grain Inc./NG Processing MB Inc.** (Also attached in this document). This correspondence is to provide addendum to our current submission for the application of Environmental Certificate. This letter also brings forth with the Global Grain Canada LTD ownership and titles and responds to the concerns you raised as follows:

1. The 500 dollar application fee payable to the Minister of Finance (Cheque Attached)
2. A process flow diagram for both plants/sites
3. A visual overview of the operations (input/output: tonnage received, shipped and waste)
4. Updated Status of the Title for each property (Titles attached)

**The 500 Dollar Application Fee**

This fee is paid by Global Grain Canada LTD and not ILTA grain as earlier thought of. This is because ILTA Grain Inc. did not purchase Global Grain therefore Global Grain Canada Ltd works independently and gets no support from ILTA Grain Inc. For this reason, we are requesting you to issue us with certificate bearing the name Global Grain Canada LTD. The 500 dollar cheque payable to the Minister of Finance is attached.

**Updated Status of the Title for Each Property**

Global Grain has full ownership of assets listed as Plant A and Plant B in the documents earlier submitted for the licence.

Dear Tracey,

**Re: Addendum to Notice of Alteration Request, Global Grain Canada LTD Environment Act Licence No. 2401**

In response to your letter dated October 21, 2015, File No: 4434.00, **Re: Notice of Alteration Request – ILTA Grain Inc./NG Processing MB Inc.** (Also attached in this document). This correspondence is to provide addendum to our current submission for the application of Environmental Certificate. This letter also brings forth with the Global Grain Canada LTD ownership and titles and responds to the concerns you raised as follows:

1. The 500 dollar application fee payable to the Minister of Finance (Cheque Attached)
2. A process flow diagram for both plants/sites
3. A visual overview of the operations (input/output: tonnage received, shipped and waste)
4. Updated Status of the Title for each property (Titles attached)

#### **The 500 Dollar Application Fee**

This fee is paid by Global Grain Canada LTD and not ILTA grain as earlier thought of. This is because ILTA Grain Inc. did not purchase Global Grain therefore Global Grain Canada Ltd works independently and gets no support from ILTA Grain Inc. For this reason, we are requesting you to issue us with certificate bearing the name Global Grain Canada LTD. The 500 dollar cheque payable to the Minister of Finance is attached.

#### **Updated Status of the Title for Each Property**

Global Grain has full ownership of assets listed as Plant A and Plant B in the documents earlier submitted for the issuance of Environment certificate. Even though, there was intent to sell the business to ILTA Grain, this sale did not materialize and ILTA grain is no longer part of this application and does not own Global Grain Canada LTD. Global Grain Canada works as an independent business. Attached herein find copies of the property titles for both Global Grain Canada LTD plant A and Plant B.

#### **A visual overview of the operations (input/output: tonnage received, shipped and waste)**

Global grains purchases on average 13000 Metric Tons of grain annually. About 30 Metric tons of the total grains we receive go to waste as waste dirt that is disposed. This leaves us with 12970 Metric Tons of clean products that we sell and ship out. (Table below shows the summary of Global Grain Canada Ltd input/output). Out of the products shipped out, an annual average of 7% get shipped out as curl products to Oleet Processing Ltd. Dirt waste is shipped to SWAMP management service landfill.

### Average Annual input/output of Grain

Item	Quantity (Metric Tons)
Grain Received	13,000
dirt that goes to landfill as waste	30
Processed and shipped out	12,970

Included in this addendum is the operating procedure flowchart that highlights the production process from the time when grain is received from the supplier to when it is shipped out. The grain goes through the same procedure in both plants.

Both plant A and Plant B do exactly the same thing and that is to receive grains, process/clean them package them store them and then ship them out. Other than the locations, both plants are virtually the same with the major difference being that Plant B is located near railway track and can be used to load both cargo train cars and regular road trucks while Plant A can only be used to load regular road trucks. We hope that we have addressed all the concerns that you earlier mentioned and that all the documents provided on this mail meet your requirements.

Please do not hesitate to contact us with questions and or any concerns that might have not been fully addressed on this correspondence.

Yours faithfully,

Joshua Okello

Dear Mr. Burneski :

**Re: Notice of Alteration Request – ILTA Grain Inc./ NG Processing MB Inc.**

Thank you for your letter dated August 31, 2015, requesting a Notice of Alteration for your recently acquired facilities including the site currently licensed under Environment Act Licence No. 2401. A few items remain outstanding to complete your request including fees and additional supporting information.

Fees for minor alterations apply and are triggered by two key items in your request including conducting work outside of the previously defined project area and a legal name change. The application fee for this request is \$500, payable to the Minister of Finance; the information bulletin attached elaborates on this requirement.

Please provide a process flow diagram for all of the plants/sites that provides a visual overview of the operations, including but not limited to, inputs/outputs, as well as tonnage received, shipped and waste disposed of, as an addendum to your current submission. An updated Status of Title is also required that verifies ownership for each of the associated properties.

If you should have any questions concerning the requested information or the Notice of Alteration process please feel free to contact me directly by telephone at (204) 945-7107 or email [krystal.penner@gov.mb.ca](mailto:krystal.penner@gov.mb.ca).

Yours sincerely,

Krystal Penner  
Pesticide and Agricultural Specialist
