Dear Mr. Peckover:

Re: Evergreen Environmental Technologies, Licence No. 2612 RR – Extension request for Gasification Pilot Project

Thank you for your Notice of Alteration submitted on February 24, 2020. The requested change is solely an extension of the timeframe for the pilot.

The potential environmental effect of the requested extension to the gasification pilot project is insignificant, and does not alter any approved activity at the Development; therefore a change in the timeframe is not considered to be an alteration. The extension request for the gasification pilot project is granted until March 31, 2021 for testing of the system.

Please notify Cory Graham at cory.graham@gov.mb.ca five (5) days prior to the date of commissioning and testing of the gasification system.

Please be advised that this approval is contingent on the acceptance of a revised Licence that will be issued in the near future. If you have any questions on this matter, please contact Cory Graham at (204) 250-7645 or cory.graham@gov.mb.ca.

Yours sincerely,

Original Signed By
