**Re: Carman Wastewater Treatment Lagoon
Alterations**

Please be advised that the Town of Carman, following the receipt of a Water Control Works License, completed some reconstruction work on the discharge at the Carman Wastewater Treatment lagoon. We changed this discharge by straightening out the path of the water discharge.

I have enclosed a copy of the Water Control Works License that gives a bit more information on the project. The red line shown on the top right hand corner of the map is the new path of the discharge. The previous route is the gray line that is further right of the red line.

I apologize that a Notice of Alteration was not made prior; however we mistakenly thought all applications were included in the Water Control Works application. We will know better for another time. I am also enclosing the Notice Fee, in the amount of \$500.00.

If you require any further information on the above noted, please feel free to contact the writer or Superintendent Joe Richardson.

Yours truly,

Cheryl Young CMMA
