Subject: RE: DGHT Request for review & comment - Brady Road HHW Facility File: 5638.00

The Office of the Fire Commissioner recommends that the proponent obtain a building permit prior to construction of this facility (and an occupancy permit after the construction is satisfactorily completed). The building and occupancy permit applications can be obtained from the City of Winnipeg. Also, the proponent should submit a Fire Safety Plan in conformance with section 2.8 of the Manitoba Fire Code to the Winnipeg Fire Department.

**SUBJECT: Dangerous Goods Handling and Transportation Act License Amendment
Application – 4R Winnipeg Depot – Brady Road Resource Management
Facility (Client File No. 5638.00)**

Environmental Compliance and Enforcement has reviewed the above noted Dangerous Goods Handling and Transportation Act License Amendment Application and would like to make the following comments:

1. Please identify the end disposal facility for each of the wastes listed in Table 1 of the proposal.
2. Does the proponent intend to install bollards around the aboveground used oil tank to prevent damage to the tank?
3. What is the proposed method of disposal for the spilled material, runoff, snowmelt, or rainwater collected in the sump/catch basin area?
4. What is the protocol for accepting materials at the site? Are there any materials that will be considered unacceptable?
5. What equipment will be utilized in the HHW building? Where will it be stored/maintained when not in use?
6. Please identify what will be used for the "drain guard" and how it will be monitored/maintained?
7. The proponent will be required to update their HW generator registration information to include additional wastes identified in the proposal.

**SUBJECT: Brady Road Resource Management Facility – Household Hazardous Waste
Depot. (File 5638.00)**

Air Quality Section has reviewed the above proposal and provides the following comment:

- It is expected that the proposal will have no significant impact on air quality provided that VOC containing hazardous materials like used oil, paint etc. will be handled and stored properly to prevent VOC release into the ambient air.

Mr. Rathamano,

I reviewed the above noted EAP and found no cause for concern respecting drinking water quality or safety.

If you have any questions, please call.

RE: Brady Road Resource Management Facility Household Hazardous Waste Depot
Client File No. 5838.00

Dear Ms. Braun:

MIT has reviewed the proposal under the *Dangerous Goods Handling and Transportation Act* noted above and we do not have any concern.

Thank you very much for providing us the opportunity to review the proposal.

Sincerely,

Ryan Coulter, M. Sc., P. Eng.
Manager of Environmental Services

Subject: RE: DGHT Request for review & comment - Brady Road HHW Facility File: 5638.00

Hello Raj,

I reviewed the proposal for the proposed household hazardous waste facility at the Brady Road Landfill on behalf of the Water Quality Management Section of Manitoba Conservation and Water Stewardship.

I have no substantive concerns with the proposal.

Regards,
