Dear Mr. Raichura:

Re: CITY OF WINNIPEG BRADY ROAD RESOURCE MANAGEMENT FACILITY – HOUSEHOLD HAZARDOUS WASTE DEPOT – DGHTA LICENCE PROPOSAL - FILE: 5638.00

The initial review of the City of Winnipeg Resource Management Facility *Dangerous Goods Handling and Transportation Act* (DGH&T Act) proposal has been completed.

The review has generated several comments and a request for additional information. I am herewith enclosing comments received from the following Technical Advisory Committee (TAC) members for your response and information:

- (a) Environmental Compliance & Enforcement Branch, Manitoba Conservation & Water Stewardship - for your response
- (b) The Office of the Fire Commissioner - for your information purpose and
- (c) Environmental Compliance & Enforcement Branch, Manitoba Conservation & Water Stewardship – Air Quality Section - for your information purpose.

The DGH&T Act /EA review process will continue upon receipt of your response.

If you have any questions in this regard, please contact the undersigned at (204) 945-7086 or e mail at raj.rathamano@gov.mb.ca.

Yours truly,

“Original signed by Raj Rathamano”

**SUBJECT: Dangerous Goods Handling and Transportation Act License Amendment
Application – 4R Winnipeg Depot – Brady Road Resource Management
Facility (Client File No. 5638.00)**

Environmental Compliance and Enforcement has reviewed the above noted Dangerous Goods Handling and Transportation Act License Amendment Application and would like to make the following comments:

1. Please identify the end disposal facility for each of the wastes listed in Table 1 of the proposal.
2. Does the proponent intend to install bollards around the aboveground used oil tank to prevent damage to the tank?
3. What is the proposed method of disposal for the spilled material, runoff, snowmelt, or rainwater collected in the sump/catch basin area?
4. What is the protocol for accepting materials at the site? Are there any materials that will be considered unacceptable?
5. What equipment will be utilized in the HHW building? Where will it be stored/maintained when not in use?
6. Please identify what will be used for the "drain guard" and how it will be monitored/maintained?
7. The proponent will be required to update their HW generator registration information to include additional wastes identified in the proposal.

Comments received from the Technical Advisory Committee (TAC) for information

(b) Office of the Fire Commissioner, March 31, 2015

From: Kubish, Cheryl (OFC)

To: Rathamano, Raj (CWS)

Subject: RE: DGHT Request for review & comment - Brady Road HHW Facility File: 5638.00

The Office of the Fire Commissioner recommends that the proponent obtain a building permit prior to construction of this facility (and an occupancy permit after the construction is satisfactorily completed). The building and occupancy permit applications can be obtained from the City of Winnipeg. Also, the proponent should submit a Fire Safety Plan in conformance with section 2.8 of the Manitoba Fire Code to the Winnipeg Fire Department.

Cheryl Kubish
Administrative Assistant
Office of the Fire Commissioner

**SUBJECT: Brady Road Resource Management Facility – Household
Hazardous Waste Depot. (File 5638.00)**

Air Quality Section has reviewed the above proposal and provides the following comment:

- It is expected that the proposal will have no significant impact on air quality provided that VOC containing hazardous materials like used oil, paint etc. will be handled and stored properly to prevent VOC release into the ambient air.
