October 5, 2016

Jordan Willner, Chief Administrative Officer
Town of Snow Lake
Box 40
Snow Lake MB R0B 1M0

Dear Mr. Willner:

Enclosed is Licence No. 298 HW issued to the Town of Snow Lake for the operation of a used oil products and material collection depot (the Facility) at NW 09-68-17 WPM at the Snow Lake Waste Disposal Grounds near Snow Lake, Manitoba, in accordance with the Application filed under The Dangerous Goods Handling and Transportation Act.

In addition to the enclosed Licence requirements, please be informed that all other applicable federal, provincial and municipal regulations and by-laws must be complied with. A Notice of Alteration must be filed with the Director for approval prior to any alteration to the Development as licensed.

For further information on the administration and application of the Licence, please feel free to contact Cristal Huculak, Environment Officer at 204-627-8248.

Pursuant to Section 25 of The Dangerous Goods Handling and Transportation Act, this licensing decision may be appealed by any person who is affected by the issuance of this Licence to the Minister of Sustainable Development within 30 days of the date of the Licence.

Yours truly,

“original signed by”

Tracey Braun, M.Sc.
Director
Dangerous Goods Handling and Transportation Act

c: Don Labossiere, T. Prawdzik, C. Huculak - Environmental Compliance and Enforcement
Public Registries

NOTE: Confirmation of Receipt of this Licence No. 298 HW (by the Licencee only) is required by the Director of Environmental Approvals. Please acknowledge receipt by signing in the space below and provide a copy (letter only) to the Department by October 19, 2016

**A COPY OF THE LICENCE MUST BE KEPT ON SITE AT THE DEVELOPMENT AT ALL TIMES**
Licence No./Licence n° 298 HW

Issue Date/Date de délivrance: October 5, 2016

In accordance with The Dangerous Goods Handling and Transportation Act (C.C.S.M. c. D12) / Conformément à la Loi sur la manutention et le transport des marchandises dangereuses (C.P.L.M. c. D12)

THIS LICENCE IS ISSUED TO:/CETTE LICENCE EST DONNÉE À:

TOWN OF SNOW LAKE;
"the Licencee"

for the operation of a used oil products and material collection depot (the Facility) at NW 09-68-17 WPM at the Snow Lake Waste Disposal Grounds near Snow Lake, Manitoba, in accordance with the Application filed under The Dangerous Goods Handling and Transportation Act on April 11, 2016 and subject to the following specifications, limits, terms and conditions:

DEFINITIONS

In this Licence,

"accredited laboratory" means an analytical facility accredited by the Standards Council of Canada (SCC), or accredited by another accrediting agency recognized by Manitoba Sustainable Development to be equivalent to the SCC, or be able to demonstrate, upon request, that it has the quality assurance/quality control (QA/QC) procedures in place equivalent to accreditation based on the international standard ISO/IEC 17025, or otherwise approved by the Director;

"Act" means The Dangerous Goods Handling and Transportation Act, C.C.S.M.c.D12;

"approved" means approved by the Director or assigned Environment Officer in writing;

"contaminant" means a contaminant as defined in The Dangerous Goods Handling and Transportation Act, as amended from time to time;

"daily" means any 24-hour period;

**A COPY OF THE LICENCE MUST BE KEPT ON SITE AT THE DEVELOPMENT AT ALL TIMES**
"days" means calendar days unless otherwise indicated;

"Director" means an employee so designated pursuant to *The Dangerous Goods Handling and Transportation Act*;

"drum" means a container having a capacity of 205 litres;

"Environment Officer" means an employee so designated pursuant to *The Dangerous Goods Handling and Transportation Act*;

"hazardous waste" means a product, substance or organism that:
   a) is prescribed, designated or classified as hazardous waste in the regulations, or
   b) by its nature conforms to the classification criteria for one or more classes of hazardous wastes set out in the regulations;

"licenced carrier" means a person who has a valid licence to transport hazardous waste pursuant to *Manitoba Regulation 195/2015* under *The Dangerous Goods Handling and Transportation Act* (*C.C.S.M*. c. D12), as amended from time to time;

"odour nuisance" means a continuous or repeated odour, smell or aroma, in an affected area, which is offensive, obnoxious, troublesome, annoying, unpleasant or disagreeable to a person:
   a) residing in an affected area;
   b) working in an affected area; or
   c) present at a location in an affected area which is normally open to members of the public;
   if the odour, smell or aroma
   d) is the subject of at least 5 written complaints, received by the Director in a form satisfactory to the Director and within a 90-day period, from 5 different persons falling within clauses (a), (b) or (c), who do not live in the same household; or
   e) is the subject of at least one written complaint, received by the Director in a form satisfactory to the Director, from a person falling within clauses a), b) or c) and the Director is of the opinion that if the odour, smell or aroma had occurred in a more densely populated area there would have been at least 5 written complaints received within a 90-day period, from 5 different persons who do not live in the same household;

"oil" means any petroleum or synthetic crankcase oil, engine oil, hydraulic fluid, transmission fluid, gear oil, heat transfer fluid, or other fluid capable of use for lubricating purposes in machinery or equipment;

"permanently closed" means that the facility is not operated for a period of 12 months or more;

"registered generator" means a person who is registered as a hazardous waste generator pursuant to *Manitoba Regulation 195/2015* under *The Dangerous Goods Handling and Transportation Act*, as amended from time to time;
"Standard Methods for the Examination of Water and Wastewater" means the most recent edition of Standard Methods for the Examination of Water and Wastewater published jointly by the American Public Health Association, the American Water Works Association and the Water Environment Federation;

"Transportation of Dangerous Goods Regulations" means the Transportation of Dangerous Goods Regulations, SOR/2001-286, made under the Transportation of Dangerous Goods Act, 1992 (Canada), as amended from time to time;

"used oil" means petroleum-derived or synthetic lubrication oil that has become unsuitable for its original purpose due to the presence of physical or chemical impurities or the loss of original properties if the oil falls within any of the following categories:  
  a) lubrication oils for internal combustion engines such as motor oil, vehicle crankcase oil and engine lubricating oil;  
  b) transmission fluids, gearbox and differential oils; and  
  c) hydraulic fluids;

"used oil filter" means an oil filter containing used oil that through use, storage, handling, defect, damage or other similar circumstances can no longer be used for its original purpose; and

"used oil products and material" means used oil, used oil filters or used oil containers.

GENERAL TERMS AND CONDITIONS

This section of the Licence contains requirements intended to provide guidance to the Licencee in implementing practices to ensure that the environment is maintained in such a manner as to sustain a high quality of life, including social and economic development, recreation and leisure for present and future Manitobans.

1. The Licencee shall implement a high standard of equipment maintenance and good housekeeping and operational practices with respect to the Facility, at all times.

2. The restrictions and conditions of this Licence are severable. If any restriction or condition of this Licence, or the application thereof, to any circumstances is held invalid, the application of such restriction or condition to other circumstances and the remainder of this Licence shall not be affected thereby.

3. A copy of this Licence shall be kept on site at the Facility and be available at all times at the request of an Environment Officer.
Future Sampling

4. In addition to any of the terms or conditions specified in this Licence, the Licencee shall, upon the request of the Director:
   a) sample, monitor, analyze and/or investigate specific areas of concern regarding any segment, component or aspect of contaminant storage, containment, treatment, handling, disposal or emission systems, for such contaminants or ambient quality, aquatic toxicity, leachate characteristics and discharge or emission rates, for such duration and at such frequencies as may be specified;
   b) determine the environmental impact associated with the release of any contaminant(s) from the said Facility;
   c) conduct specific investigations in response to the data gathered during environmental monitoring programs; or
   d) provide the Director, within such time as may be specified, with such reports, drawings, specifications, analytical data, descriptions of sampling and analytical procedures being used, bioassay data, flow rate measurements and such other information as may from time to time be requested.

Sampling Methods

5. The Licencee shall, unless otherwise specified in this Licence:
   a) carry out all preservations and analyses on liquid samples in accordance with the methods prescribed in the most current edition of Standard Methods for the Examination of Water and Wastewater or in accordance with equivalent preservation and analytical methodologies approved by the Director;
   b) carry out all sampling of, and preservation and analyses on, water, soil, and air samples in accordance with methodologies approved by the Director;
   c) have all analytical determinations undertaken by an accredited laboratory; and
   d) report the results to the Director, in writing and in an electronic format acceptable to the Director, within 60 days of the samples being taken.

Records

6. The Licencee shall, unless otherwise specified by this Licence, retain all records relating to this licence during the full life of operation of the Facility, and after closure, for such period of time as may be specified by the Director. Records may be transferred from their original form to other accepted forms for information storage. These records shall be made available to an Environment Officer upon request.

7. The Licencee shall ensure that all records including, but not limited to, tank collection logs, manifests, shipping documents, sample analyses, and spill reports are to be kept for a minimum period of two years and are available for inspection by an Environment Officer.
8. The Licencee shall submit all information required to be provided to the Director or Environment Officer under this Licence, in writing, in such form (including number of copies) and of such content as may be required by the Director or Environment Officer, and each submission shall be clearly labeled with the Licence Number and File Number associated with this Licence.

9. The Licencee shall carry out, as deemed necessary by the Director, any remedial measures or modifications in respect to matters authorized under this Licence.

**Fire Reporting**

10. The Licencee shall in the event of a fire which continues in excess of thirty (30) minutes or requires fire suppression assistance from personnel outside of the Facility (e.g. fire department) report the fire by calling (204) 944-4888 (toll free 1-855-944-4888), identifying the type of materials involved and the location of the fire.

**Trained Personnel**

11. The Licencee shall provide training for all persons who will be assigned duties at the Facility in:
   a) transportation of dangerous goods;
   b) regulatory requirements; and
   c) procedures pertaining to the operation of the Facility including spill response.

12. The records of the training of Clause 11 shall be made available for inspection by an Environment Officer upon request.

13. The Licencee shall ensure trained personnel are on site at all times when the Facility is open to receive used oil products and materials.

**SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS**

**Facility Operations**

14. The Licencee shall operate the Facility in accordance with the Application dated April 4, 2016.

15. The Licencee shall comply with all the applicable requirements of:
   a) Manitoba Regulation 188/2001, or any future amendment thereof, respecting the Storage and Handling of Petroleum Products and Allied Products; and
   b) Manitoba Office of the Fire Commissioner.

16. The Licencee shall not receive at the Facility any hazardous waste other than used oil products and materials.
17. The Licencee shall:
   a) maintain the Facility in a condition capable of retaining any spillage which may occur. Floor drains or catch basins are not permitted in the storage area unless they are connected to an on-site holding tank or sump; and
   b) manage all liquids collected in holding tanks or sumps in a manner approved by the Director.

18. The Licencee shall inspect the Facility on a daily basis and properly manage any unauthorized materials found at the Facility by securely storing or removing them from the Facility.

19. The Licencee shall lock the Facility in a manner that prevents unauthorized delivery of hazardous waste when the trained personnel are not present at the Facility.

**Signage**

20. The Licencee shall post:
   a) legible, weatherproof signs at the entrance to the Facility identifying the area as a used oil products and materials and household hazardous waste collection facility; and
   b) the signs indicate the hours of operation, a contact number and a warning not to leave hazardous waste at the facility when the trained personnel are not available to accept delivery.

**Material Transport**

21. The Licencee shall allow transport of all used oil products and materials received at the Facility to a facility operating under the authority of a Licence issued pursuant to *The Dangerous Goods Handling and Transportation Act* in Manitoba, or under an approval of similar type in another jurisdiction.

22. The Licencee shall use only licenced carriers to transport hazardous wastes from the Facility.

23. The hazardous waste transported from the Facility shall be accompanied by a hazardous waste manifest or a dangerous goods shipping document, as appropriate.

**The Used Oil Products and Material Depot – Incoming Used Oil**

24. The Licencee shall not store more than 4500 liters of used oil at the Facility at any one time.

25. The Licencee shall ensure that used oil is only stored in the ULC-S652 1100 L storage tank and 205 L drums for storage of used oil filters and used oil containers.

26. The ULC-S652 tank referred to in Clause 25 shall be situated on an impervious surface which, at minimum, would be 152 millimetres of compacted clay.
27. The Licencee shall maintain a loading area immediately adjacent to the storage tank that:
   a) is properly sized and graded; and
   b) made of an impermeable material acceptable to an Environment Officer.

28. The Licencee shall inspect the used oil storage tank weekly in order that any leakage from the tanks into the secondary containment system is detected. Records of these inspections shall be made available to an Environment Officer upon request.

29. The Licencee shall equip the used oil transfer area with a containment system that is capable of containing 110% of the volume of used oil being transferred.

30. The Licencee shall, when the trained personnel are not present at the depot, close the depot in a manner that prevents unauthorized delivery of used oil products and materials into the depot.

31. The Licencee shall not receive at the depot used oil from commercial/industrial generators who are not registered generators.

32. The Licencee shall allow only the trained personnel employed by the Licencee to transfer used oil into the collection tank.

33. The Licencee shall visually inspect (for contamination) each individual container of used oil that is collected at the facility before the contents are transferred to the collection tank.

34. The used oil that is deemed to be contaminated shall be segregated and disposed of at a facility operating under the authority of a Licence issued pursuant to The Dangerous Goods Handling and Transportation Act in Manitoba, or under an approval of similar type in another jurisdiction.

35. The Licencee shall whenever used oils are being transferred to or from the cargo tank of a vehicle, or to or from the storage tanks, or any other transfer systems, supervise the transfer at all times and in such a manner that the flow of liquid can be immediately shut off.

36. The Licencee shall maintain, for each tank in the process of being filled, a tank collection log containing at minimum:
   a) the date and time of receipt of the oil;
   b) the name and address (or vehicle licence number) of the person who delivered the oil;
   c) the quantity of oil received;
   d) the signature of the person who delivered the oil; and
   e) for commercial/industrial generators, the Manitoba Generator Registration Number.

37. The Licencee shall ensure that the operator obtains a representative sample of each full tank of collected used oil. The operator shall retain the sample until verification of destruction or recycling of the oil is received.

38. The Licencee shall, upon the request of the Director, have the sample of used oil referred to in Clause 37 analyzed by an accredited laboratory.
39. The Licencee shall store the used oil filters that are received at the depot in containers that have a maximum capacity of 205 liters and are designed such that they will contain any used oil which may drain from the filters.

40. The Licencee shall store the drums for oil filters referred to in Clause 39 in a manner which:
   a) is safe and secure; and
   b) prevents infiltration from precipitation.

41. The Licencee shall prepare a monthly report summarizing the following information respecting used oil filters received at the depot:
   a) the date of each bulk shipment of used oil filters received at the depot;
   b) the name and address of each generator of each bulk shipment; and
   c) the number (or weight) of used oil filters treated at the depot.

The Used Oil Products and Material Depot - Used Oil Containers

42. The Licencee shall treat all used oil containers prior to shipment to a recycler, at a minimum:
   a) by visually inspecting the container to confirm that it contained used oil;
   b) by placing the container in a tray and allowing it to drain for 24 hours; and
   c) by storing drained containers in a suitable metal receptacle prior to shipment from the depot.

Air Emissions

43. The Licencee shall not cause or permit an odour nuisance to be created as a result of the construction, operation or alteration of the Facility, and shall take such steps as the Director may require to eliminate or mitigate an odour nuisance.

Spills

44. The Licencee shall, in the case of physical or mechanical equipment breakdown or process upset where such breakdown or process upset results or may result in the release of a contaminant in an amount or concentration, or at a level or rate of release, that causes or may cause a significant adverse effect, immediately report the event by calling the 24-hour environmental accident reporting line at 204-944-4888 (toll-free 1-855-944-4888). The report shall indicate the nature of the event, the time and estimated duration of the event and the reason for the event.

45. The Licencee shall, following the reporting of an event pursuant to Clause 44,
   a) identify the repairs required to the mechanical equipment;
   b) undertake all repairs to minimize unauthorized discharges of a contaminant;
   c) complete the repairs in accordance with any written instructions of the Director; and
   d) submit a report to the Director about the causes of breakdown and measures taken, within one week of the repairs being done.
46. The Licencee shall equip the Facility with spill cleanup equipment and supplies.

47. In the event of a spill or release to surface water of any contaminant that could potentially affect downstream users of drinking water, the Licencee shall notify the Office of Drinking Water and the Town of Swan Lake water treatment plant Operator.

**Emergency Response**

48. The Licencee shall prepare, within 90 days of the date of this Licence, and maintain an emergency response contingency plan in accordance with the Canadian Centre for Occupational Health and Safety “Emergency Response Planning Guide” or other emergency planning document acceptable to the Director.

49. The emergency response contingency plan shall be designed to minimize hazards from fires, explosions, or any unplanned release of hazardous waste or contaminants.

50. A copy of the contingency plan shall be kept on site and emergency response information must be posted in a conspicuous location.

**Trained Personnel**

51. The Licencee shall provide training for all persons who will be assigned duties at the Facility in:
   a) transportation of dangerous goods;
   b) regulatory requirements;
   c) procedures pertaining to the operation of the facility including spill response; and
   d) appropriate personal health and safety procedures.

52. The records of the training of Clause 51 shall be made available for inspection by an Environment Officer upon request.

**Insurance and Financial Assurance**

53. The Licencee shall maintain throughout the term of this License:
   a) $50,000.00 Property Insurance;
   b) $5,000,000.00 General Comprehensive Liability Insurance; and
   c) $250,000.00 Environmental Impairment Liability Insurance.

54. The Director may, where it is deemed to be in the public interest, require the Licencee to provide financial assurance in the form of a letter of credit, a bond, further insurance, or other form acceptable to the Director in an amount to be determined by the Director. The Director may order forfeiture of this security, either in whole or in part, by giving notice to that effect to the Licencee upon the Director being satisfied that the facility is in breach of any of the terms of this License, or for reimbursement of any costs or expenses incurred by the Province of Manitoba in rectifying environmental damage caused, or contributed to, by the operation of the Facility.
Alterations and Decommissioning

55. The Licencee shall obtain approval in writing from the Director for any proposed alteration to the Facility before proceeding with the alteration.

56. The Licencee shall, in the event that the Facility is to be permanently closed or is offered for sale, conduct an investigation prior to permanent closure or transfer of the facility, to the satisfaction of the Director, to identify any contamination which may have resulted from the operation of the Facility.

57. The Licencee shall, where the investigation referred to in Clause 56 of this Licence shows that contamination of the environment has occurred, submit a remediation proposal to the Director, within 90 days of completing the investigation and upon approval of this proposal by the Director, carry out the required remediation in accordance with The requirements of The Contaminated Sites Remediation Act.

REVIEW AND REVOCATION

A. If, in the opinion of the Director, the Licencee has exceeded, or is exceeding, or has failed, or is failing to meet the specifications, limits, terms, or conditions set out in this License, the Director may, temporarily or permanently, revoke this License.

B. If, in the opinion of the Director, new evidence warrants a change in the specifications, limits, terms or conditions of this License, the Director may require the filing of a new application pursuant to The Dangerous Goods Handling and Transportation Act.
