Notice of Environment Act Proposal

Manitoba Sustainable Development has received a proposal pursuant to The Environment Act regarding the following operation and invites public participation in the review process:

**MANITOBA SUSTAINABLE DEVELOPMENT – PARKS AND PROTECTED SPACES
BRANCH – OPAPISKAW CAMPGROUND WATER TREATMENT PLANT
UPGRADES – FILE: 5893.00**

A proposal has been received from Associated Engineering on behalf of the Parks and Protected Spaces Branch of Manitoba Sustainable Development for the construction and operation of an upgraded water treatment plant at the Opapiskaw Campground. The plant would withdraw up to 0.50 liter per second of water from Nutimik Lake between May to September, treat it using a filtration/ion exchange treatment process, disinfect it using ultraviolet and chlorine disinfection, and distribute it within the campground. Backwash water from the treatment process (about 62 cubic metres per year) would be discharged back to Nutimik Lake while the regeneration water (upwards of 30 cubic metres per year) would be directed to the campground's wastewater lagoon. Full operation commenced at the start of 2017.

Anyone likely to be affected by the above operation and who wishes to make a representation either for or against the proposal should contact the Department, in writing or by E-mail (donna.garcia@gov.mb.ca), not later than **JULY 14, 2017. Further information is available from the Public Registries located at: Legislative Library, 200 Vaughan St., Winnipeg; Millennium Public Library, 4th Floor, 251 Donald St., Winnipeg; Online Registry: <http://www.gov.mb.ca/sd/eal/registries/index.html> or by contacting Donna Garcia, Environment Officer.**

Information submitted in response to this proposal is considered public information and will be made available to the proponent and placed on the public registry established in accordance with Section 17 of *The Environment Act*.
