

Notice of Environment Act Proposal

Manitoba Sustainable Development has received a proposal pursuant to The Environment Act regarding the following operation and invites public participation in the review process:

CITY OF WINNIPEG BIOSOLIDS LAND APPLICATION PROGRAM – FILE: 5951.00

The City of Winnipeg (City) has filed a proposal for a Biosolids Land Application Program (Program). The proposed Program consists of annual land application of the City's biosolids materials that have undergone final treatment at the City's North End Water Pollution Control Centre (NEWPCC) onto agricultural lands within rural municipalities located in proximity to the City in an agri-environmentally sustainable manner. The Program will involve transporting biosolids via enclosed trucks from the NEWPCC to agricultural fields within the Rural Municipalities of Rosser and/or Macdonald and/or Cartier or other possible municipalities. Up to 70% of the monthly biosolids produced by the City during May through October of a given year, or approximately 20,000 wet metric tonnes, will be land applied each application season.

Anyone likely to be affected by the above operation and who wishes to comment on the proposal should contact the department, in writing or by email to Robert.Boswick@gov.mb.ca, not later than APRIL 3, 2018. Further information is available from the online Public Registry located at: www.gov.mb.ca/sd/eal/registries/index.html or by contacting Robert Boswick, Environmental Engineer at Robert.Boswick@gov.mb.ca or by telephone at 204-945-6030.

Information submitted in response to this proposal is considered public information and will be made available to the proponent and placed on the public registry established in accordance with Section 17 of The Environment Act.
