**Re: Licence 313HW Annual Non-Regulated Volume Increase**

Dear, Nada Suresh

Attached is a notice of alteration form as well as the supporting documentation for permission to amend our operation permit. We are requesting an annual volume increase of Non-Regulated waste from 400,000kg to 800,000kg. This will not affect the storage within the warehouse at any given time, as we will always be under design storage capacity. This is a follow up to our 2020 annual report(attached) as we stated that we would be applying for the increase as the annual volume annual flow of non-regulated waste was 490,908 kg.

A electronic copy of this request and documentation was also sent to you via email.
