Dear Brian Sekhon:

Re: Stericycle ULC - Notice of Alteration Approval - Dangerous Goods Handling and Transportation Act Licence No. 313 HW

Thank you for your notice of alteration submission dated July 12, 2021 for an alteration to Dangerous Goods Handling and Transportation Act Licence No. 313 HW (the licence), originally issued for the operation of a medical and hazardous waste transfer facility located at 2 Ronn Road, Stony Mountain within the Rural Municipality of Rosser.

The intent of the alteration is to increase the annual receipt of non-hazardous wastes from 400,000 kg to 800,000 kg at the facility. The alteration will not affect the storage capacity of the warehouse at any given time.

Upon review of the notice of alteration, I am satisfied that the identified changes in the environmental effects resulting from the proposed alteration would be insignificant. Therefore, I approve the implementation of the July 12, 2021 notice of alteration with the amendment of Appendix A to the licence as Revised Appendix A attached to this approval and the following conditions:

1. The Licensee shall segregate non-hazardous wastes from hazardous wastes.
2. The Licensee shall prominently affix a weather resistant label with the name of the hazardous wastes and non-hazardous wastes.

...2

All clauses of Dangerous Goods Handling and Transportation Act Licence No. 313 HW remain in effect.

If you have any questions concerning this approval, please contact Elise Dagdick, Environment Officer, Environmental Approvals Branch, at Elise.Dagdick@gov.mb.ca or 204-619-0709.

For questions relating to the ongoing administration of Dangerous Goods Handling and Transportation Act Licence No. 313 HW, please contact Nada Suresh, Regional Supervisor, Environmental Compliance and Enforcement Branch, at Nada.Suresh@gov.mb.ca or 204-945-8214.

Sincerely,

Original signed by,

Laura Pyles,
Acting Director

December 21, 2018

Jean-Pierre Pepin, Director, Safety, Health and Compliance
Stericycle ULC
19 Armthorpe Rd.
Brampton ON L6T 5M4

Dear Mr. Pepin:

Enclosed is **Licence No. 313 HW** issued to **Stericycle ULC** for the operation of a medical and hazardous waste transfer facility known as the Stericycle Transfer Facility, located at 20 Ronn Road, Stony Mountain, Rural Municipality of Rosser, Manitoba in accordance with the application filed pursuant to The Dangerous Goods Handling and Transportation Act.

In addition to the enclosed Licence requirements, please be informed that all other applicable federal, provincial and municipal regulations and by-laws must be complied with. A Notice of Alteration must be filed with the Director for approval prior to any alteration to the Development as licensed.

If you require further information regarding this matter, please contact Yvonne Hawryliuk at 204-945-5305 or yvonne.hawryliuk@gov.mb.ca.

Pursuant to Section 25 of The Dangerous Goods Handling and Transportation Act, this licensing decision may be appealed by any person who is affected by the issuance of this Licence to the Minister of Sustainable Development within 30 days of the date of the Licence.

Yours truly,

Tracey Braun, M.Sc.
Director
Dangerous Goods Handling and Transportation Act

THIS LICENCE IS ISSUED TO:/CETTE LICENCE EST DONNÉE À:

STERICYCLE, ULC;
"the Licencee"

for the operation of a medical and hazardous waste transfer facility ("the Facility") known as the Stericycle Transfer Facility, located at 20 Ronn Road, Stony Mountain, Rural Municipality of Rosser, Manitoba in accordance with the application filed pursuant to The Dangerous Goods Handling and Transportation Act dated April 6, 2018 and subject to the following specifications, limits, terms and conditions:

DEFINITIONS

In this Licence,

"accredited laboratory" means an analytical facility accredited by the Standard Council of Canada (SCC), or accredited by another accrediting agency recognized by Manitoba Sustainable Development to be equivalent to the SCC, or be able to demonstrate, upon request, that it has the quality assurance/quality control (QA/QC) procedures in place equivalent to accreditation based on the international standard ISO/IEC 17025, or otherwise approved by the Director;

"affected area" means a geographical area, excluding the property of the Facility;

"approved" means approved by the Director or assigned Environment Officer in writing;

"contaminant" means a contaminant as defined in The Dangerous Goods Handling and Transportation Act, as amended from time to time;

"daily" means each day that the facility is being operated by staff;

****A COPY OF THE LICENCE MUST BE KEPT ON SITE AT THE DEVELOPMENT AT ALL TIMES****

“dangerous goods” means any product, substance or organism designated in the regulations, or conforming with the criteria set out in the regulations, or in any regulation adopted in accordance with The Dangerous Goods Handling and Transportation Act, and includes hazardous wastes;

"Director" means an employee so designated pursuant to The Dangerous Goods Handling and Transportation Act;

"drum" means a container having a capacity of 205 litres;

"drum equivalent" means a volume of 205 litres;

“Environment Officer” means an employee so designated pursuant to The Dangerous Goods Handling and Transportation Act;

"hazardous waste" means a product, substance or organism as defined in The Dangerous Goods Handling and Transportation Act, as amended from time to time;

"licenced carrier" means a person who has a valid licence to transport hazardous waste pursuant to Manitoba Regulation 195/2015 under The Dangerous Goods Handling and Transportation Act, as amended from time to time;

"medical waste" means waste that is derived from animals or humans or bio-research;

"noise nuisance" means an unwanted sound, in an affected area, which is annoying, troublesome, or disagreeable to a person:

- a) residing in an affected area;
- b) working in an affected area; or
- c) present at a location in an affected area which is normally open to members of the public;

if the unwanted sound

- d) is the subject of at least 5 written complaints, received by the Director in a form satisfactory to the Director and within a 90-day period, from 5 different persons falling within clauses a), b) or c), who do not live in the same household; or
- e) is the subject of at least one written complaint, received by the Director in a form satisfactory to the Director, from a person falling within clauses a), b) or c) and the Director is of the opinion that if the unwanted sound had occurred in a more densely populated area there would have been at least 5 written complaints received within a 90-day period, from 5 different persons who do not live in the same household;

"odour nuisance" means a continuous or repeated odour, smell or aroma, in an affected area, which is offensive, obnoxious, troublesome, annoying, unpleasant or disagreeable to a person:

- a) residing in an affected area;
- b) working in an affected area; or
- c) present at a location in an affected area which is normally open to members of the public;

if the odour, smell or aroma

- d) is the subject of at least 5 written complaints, received by the Director in a form satisfactory to the Director and within a 90-day period, from 5 different persons falling within clauses a), b) or c), who do not live in the same household; or
- e) is the subject of at least one written complaint, received by the Director in a form satisfactory to the Director, from a person falling within clauses a), b) or c) and the Director is of the opinion that if the odour, smell or aroma had occurred in a more densely populated area there would have been at least 5 written complaints received within a 90-day period, from 5 different persons who do not live in the same household;

"permanently closed" means that the Facility is not operated for a period of twelve (12) months or more;

"registered generator" means a person who is registered as a hazardous waste generator pursuant to Manitoba Regulation 195/2015 under The Dangerous Goods Handling and Transportation Act, as amended from time to time; and

"wastewater" means any liquid containing a contaminant as defined in The Dangerous Goods Handling and Transportation Act, associated with or resulting from the Facility which is discharged into the environment.

GENERAL TERMS AND CONDITIONS

This Section of the Licence contains requirements intended to provide guidance to the Licencee in implementing practices to ensure that the environment is maintained in such a manner as to sustain a high quality of life, including social and economic development, recreation and leisure for present and future Manitobans.

1. The Licencee shall implement a high standard of equipment maintenance and good housekeeping and operational practices with respect to the Facility, at all times.
2. The restrictions and conditions of this Licence are severable. If any restriction or condition of this Licence, or the application thereof, to any circumstances is held invalid, the application of such restriction or condition to other circumstances and the remainder of this Licence shall not be affected thereby.
3. Nothing in this Licence shall be construed to relieve the Licencee from civil or criminal penalties.

Future Sampling

4. The Licencee shall at the request of the Director:
 - a) conduct special studies to determine ambient air quality within the vicinity of the Facility and/or emission testing for specified air pollutants in a manner satisfactory to the Director; and
 - b) submit a report containing the ambient air quality data and/or the emission testing data and all other related data to the Director within ninety (90) days after completion of the studies.

5. In addition to any terms or conditions specified in this Licence, the Licencee shall, upon the request of the Director:
 - a) sample, monitor, analyze and/or investigate specific areas of concern regarding any segment, component or aspect of pollutant storage, containment, treatment, handling, disposal or emission systems, for such pollutants or ambient quality, aquatic toxicity, leachate characteristics and discharge or emission rates, for such duration and at such frequencies as may be specified;
 - b) determine the environmental impact associated with the release of any pollutant(s) from the Facility;
 - c) conduct specific investigations in response to the data gathered during environmental monitoring programs; or
 - d) provide the Director within such time as may be specified, with such reports, drawings, specifications, analytical data, descriptions of sampling and analytical procedures being used, bioassay data, flow rate measurements and such other information as may from time to time be requested.

Sampling Methods

6. The Licencee shall, unless otherwise specified in this Licence:
 - a) carry out all preservations and analyses on liquid samples in accordance with the methods prescribed in the most current edition of Standard Methods for the Examination of Water and Wastewater or in accordance with equivalent preservation and analytical methodologies approved by the Director;
 - b) carry out all sampling of, and preservation and analyses on dangerous goods, hazardous wastes, soil, or air samples in accordance with methodologies approved by the Director;
 - c) have all analytical determinations undertaken by an accredited laboratory; and
 - d) report the results to the Director, in writing and in an electronic form acceptable to the Director within sixty (60) days of the samples being taken, or within another time frame as specified by the Director.
7. Notwithstanding Clause 6 of this licence, where analysis are carried out on waste substances in order to determine the classification of the substances, the Licencee is not required to submit the analysis results to the Director, except upon request.

Maintain Records

8. The Licencee shall, unless otherwise specified by this Licence, retain all records relating to this Licence during the full life of operation of the Facility, and after closure, for such period of time as may be specified by the Director. Records may be transferred from their original form to other accepted forms for information storage..

Reporting Format

9. The Licencee shall submit all information required to be provided to the Director or Environment Officer under this Licence, in written and electronic format, in such form (including number of copies) and of such content as may be specified by the Director or Environment Officer, and each submission shall be clearly labelled with the Licence Number and Client File Number associated with this Licence.

Compliance Monitoring

10. The Licencee shall, for the purpose of compliance monitoring, notify the Director or Environment Officer verbally concerning any actual or anticipated breach or failure to meet any specification, limit, term or condition of this Licence, as soon as possible after discovery, and in any event within two (2) working days of discovery.

Remedial Measures

11. The Licencee shall carry out, as deemed necessary by the Director or Environment Officer, any remedial measures or modifications in respect to matters authorized under this Licence.

Responsible Party

12. The Licencee shall designate an employee, within sixty (60) days of the date of issuance of this Licence, as the Licencee's Environmental Coordinator, whose job description will include assisting the Licencee in complying with the limits, terms and conditions in this Licence and assisting Senior Management of the Licencee to manage environmental issues at the Facility. The name of the Environmental Coordinator shall be submitted in writing to the Director within fourteen (14) days of appointment and any subsequent appointment.

Fire Reporting

13. The Licencee shall in the event of a fire which continues in excess of thirty (30) minutes or requires fire suppression assistance from personnel outside of the Facility (e.g. fire department) report the fire by calling the Environmental Emergency Reporting Line at (204) 944-4888 (toll free 1-855-944-4888), identifying the type of materials involved and the location of the fire.

Trained Personnel

14. The Licencee shall provide training for all persons who will be assigned duties at the Facility in:
 - a) transportation of dangerous goods;
 - b) regulatory requirements; and
 - c) procedures pertaining to the operation of the Facility including spill response and personal health and safety.

15. The records of the training of Clause 14 shall be made available for inspection by an Environment Officer upon request.
16. The trained personnel shall be on site at all times when the Facility is open to receive waste or materials.

Facility Access

17. The Director, or an Environment Officer, may, without incurring liability for so doing, enter the Facility for the purpose of:
 - a) investigating, inspecting and carrying out tests at the Facility; and
 - b) examining, making copies of, or taking extracts from any records of the Facility pursuant to an investigation, inspection, or test under this Licence.
18. The Licencee shall lock the Facility in a manner that prevents unauthorized delivery of hazardous waste when the trained personnel are not present at the Facility.
19. The Licencee shall, when the operator or other trained personnel is not present at the Facility to accept materials, restrict access to the Facility with a gate and lock.

Facility Security

20. The Licencee shall equip the Facility with a security system to detect intrusion and a fire detection system in all buildings. Alarms must be monitored at a remote location and must be in good operating order at all times.

Signage

21. The Licencee shall post legible, weatherproof signs at the entrance to the Facility identifying the area as a hazardous waste collection facility; and the signs shall indicate the hours of operation and a contact number.

Spills

22. The Licencee shall in the event of an Environmental Accident as defined in The Dangerous Goods Handling and Transportation Act and Regulations thereunder, take all necessary actions to report the spill in accordance with regulatory requirements, contain the spill, manage the impacted environment and restore the environment to the satisfaction of the Director.
23. The Licencee shall equip the Facility with spill cleanup equipment and supplies.

Decommissioning Former Locations

24. By January 31, 2019, the Licencee shall provide a decommissioning plan for the Facility at Units 7 and 8, 2310 Logan Avenue, Winnipeg and for the Facility at Unit 6, 2310 Logan Avenue, Winnipeg for approval by the Director subject to any terms and conditions contained within the authorization.
25. The Licencee shall decommission Units 7 and 8, 2310 Logan Avenue, Winnipeg, Manitoba in accordance with the plan approved subject to Clause 24 by April 15, 2019, and notify the Director in writing of the decommissioning. The notification shall also include a request to cancel Licence 252 HW RR.
26. The Licencee shall decommission Unit 6, 2310 Logan Avenue, Winnipeg, Manitoba in accordance with the plan approved subject to Clause 24 by April 15, 2019 and notify the Director in writing of the decommissioning. The notification shall also include a request to cancel Licence 253 HW R.

Air and Noise Emissions

27. The Licencee shall not cause or permit an odour nuisance to be created as a result of the construction, operation, or alteration of the Facility, and shall take such steps as the Director may specify to eliminate or mitigate an odour nuisance.
28. The Licencee shall not cause or permit a noise nuisance to be created as a result of the operation or alteration of the Facility, and shall take such steps as the Director may require to eliminate or mitigate a noise nuisance.

SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS

Waste Receipt and Transport

29. The Licencee shall receive hazardous wastes from companies in Manitoba that are generators registered pursuant to Manitoba Regulation 195/2015 under The Dangerous Goods Handling and Transportation Act, as amended from time to time, or under an approval of similar type in another jurisdiction.
30. The Licencee shall only pick up medical wastes from generators who are trained with respect to sound practices for identifying, segregation, labelling, storing, transporting and disposing of medical wastes.
31. The Licencee shall only accept waste that has an appropriate shipping document completed so that the location, time and date of collection are identified.
32. The Licencee shall allow transport of all hazardous waste received at the Facility to a facility operating under the authority of a Licence issued pursuant to The Dangerous Goods Handling and Transportation Act in Manitoba, or under an approval of similar type in another jurisdiction.

33. The Licencee shall use only licenced carriers to transport hazardous wastes from the Facility.
34. The hazardous waste transported from the Facility shall be accompanied by a hazardous waste movement document or a dangerous goods shipping document, as appropriate.
35. The Licencee shall transport all hazardous wastes received at the Facility, except the medical waste as required in Clause 41, within ninety (90) days to a recycling or disposal facility operating under the authority of a Licence issued pursuant to The Dangerous Goods Handling and Transportation Act in Manitoba, or under an approval of similar type in another jurisdiction. The ninety (90) day period will commence on the date the container is filled.
36. The Licencee shall only receive those materials identified within the April 6, 2018 submission at the Facility; specifically those materials identified in Appendix 'A' to this licence.
37. The Licencee shall not accept wastes giving a positive reading on a Geiger counter.
38. The Licencee shall securely attach to all collected containers of waste an identification label indicating the unique code for the container.

Medical Wastes

39. The Licencee shall store medical waste only in a refrigerated trailer unit which is locked and enclosed in the Facility compound.
40. The Licencee shall operate the refrigerated trailer unit at a temperature equal to or lower than 4 degree Celsius at all times when the waste is required to be refrigerated.
41. The Licencee shall store medical waste only temporarily at the Facility with a maximum on-site storage not exceeding 30 days duration.
42. The Licencee shall only store medical wastes that are packaged in accordance with the National Standard of Canada, Packaging of Category A and Category B infectious substances (Class 6.2) and clinical, (bio) medical or regulated medical waste (CAN/CGSB-43.125-2016, or other standard approved by the Director.

Facility Operations

43. The Licencee shall screen all wastes prior to collection and uncovered containers, leaking containers and containers with waste materials protruding from them are not to be collected.
44. The Licencee shall only use the Facility for receiving, storing, repacking, consolidating, bulking and shipping of hazardous and non-hazardous waste.
45. The Licencee shall repackage and relabel any incoming waste only if waste arrived in damaged, leaking or improperly packaged containers.

46. The Licencee shall carry out truck to truck or other container type transfer of hazardous wastes only within an area with containment to prevent a spill to the environment, unless otherwise approved by the Director.
47. The Licencee shall comply with all the applicable requirements of:
 - a) Manitoba Regulation 188/2001, or any future amendment thereof, respecting the storage and handling of Petroleum Products and Allied Products;
 - b) Manitoba Regulation 195/2015, or any future amendment thereof, respecting hazardous wastes; and
 - c) Manitoba Office of the Fire Commissioner.
48. The Licencee shall maintain a record of current inventory of hazardous waste materials in storage at the Facility and provide to an Environment Officer upon request.
49. The Licencee shall segregate hazardous wastes with incompatible characteristics to the greatest degree possible within the Facility.
50. The Licencee shall not store hazardous waste outside other than for purposes of handling during receiving or shipping operations except medical waste stored in accordance with Clause 39.
51. The Licencee shall maintain the storage areas of the depot in a condition capable of retaining any spillage which may occur. Floor drains or catch basins are not permitted in the storage area unless they are connected only to an on-site holding tank or sump.
52. The Licencee shall comply with the National Fire Code volume quantities as set out for inside storage for dangerous goods or hazardous wastes.
53. The Licencee shall store hazardous waste:
 - a) in single pallet rows not more than 2 drum heights or 240 centimetres in height;
 - b) with a minimum aisle width between rows of 60 centimetres; and
 - c) with a maximum row width not to exceed 150 centimetres.
54. The Facility shall not exceed the design storage capacity at any time, and shall notify the designated Environment Officer if the annual volumes of any waste stream exceeds the volumes identified in Appendix 'A'.

Retention of Liquids

55. The Licencee shall carry out any draining, flushing or cleaning of containers or the internal compartments of transport vehicles performed at the Facility in a manner which retains any wash water and contaminants within the Facility and the retained fluids shall be disposed of in a manner approved by the Director or Environment Officer.

Liquid Disposal

56. The Licencee shall test any liquids that are to be disposed of to determine whether it is a hazardous waste.
57. Any materials or liquids that are determined to be a hazardous waste shall be disposed of at a licenced hazardous waste disposal facility.
58. The Licencee shall manage all liquids collected in sumps in a manner approved by the Environment Officer.
59. The Licencee shall direct all sanitary wastewater to a holding tank(s) pursuant to Manitoba Regulation 83/2003 respecting Onsite Wastewater Management Systems or to another wastewater treatment facility approved by the Director.

Solid Waste

60. The Licencee shall dispose of all non-hazardous solid waste generated or collected at the Facility, which is not recycled, only to a waste disposal ground operating under the authority of a permit issued pursuant to Manitoba Regulation 37/2016 or any future amendment thereof, or a Licence issued pursuant to The Environment Act.

Facility Inspection

61. The Licence shall inspect all storage areas daily to determine that all waste containers are secure and that none are damaged or leaking.
62. The Licencee shall record each inspection required by Clause 61 of this Licence. The record shall include the date of the inspection, the name of the person who conducted the inspection, the observations made by that person during the inspection, recommendations for remedial action and actions undertaken.
63. The records of this inspection required by Clause 62 shall be made available to an Environment Officer upon request.

Emergency Response

64. The Licencee shall prepare, within ninety (90) days of the date of issuance of this Licence, and maintain an emergency response contingency plan in accordance with the Canadian Centre for Occupational Health and Safety "Emergency Response Planning Guide" or other emergency planning guidelines acceptable to the Director.
65. The emergency response contingency plan shall be designed to minimize hazards from fires, explosions, or any unplanned release of hazardous waste or contaminants.
66. The emergency response contingency plan shall contain a current site plan of the Facility indicating the storage locations of different classes and types of hazardous wastes.
67. The Licence shall keep a copy of the emergency response contingency plan on site, in a location accessible to all persons who will be assigned duties at the Facility, at all times.
68. A copy of the emergency response contingency plan shall be made available to an Environment Officer upon request.
69. The Licencee shall review the emergency response contingency plan on an annual basis, as a minimum, and make revisions as required.
70. Within one hundred (100) days of the issuance of this Licence, the Licencee shall update and maintain a fire safety plan, which shall be kept at the Facility and made available upon request for inspection by an Environment Officer. The Licencee shall notify the Rosser Fire Service of the types of activities occurring at the Facility and the availability of a fire safety plan.

Annual Reporting

71. The Licencee shall, on or before the 31st day of March of each year and beginning in 2020, submit to the Director an annual report with respect to all activities at the Facility conducted pursuant to this Licence during the previous calendar year. The format of the report shall be approved by the Director and contain, as a minimum, the following information:
 - a) a summary of all calibration and equipment maintenance records;
 - b) summary reports and details of all incidents that require implementation of the contingency plan; and
 - c) with respect to any monitoring programs:
 - i) the date(s), exact place, and time(s) of sampling or measurements;
 - ii) the date(s) analyses were performed;
 - iii) the individual(s) who performed the analyses;
 - iv) documentation to verify the appropriate certification of the laboratory used to perform the analyses; and
 - v) quality assurance and quality control data.

Annual Hazardous Waste Receiver Report

72. The Licencee shall, on or before the 31st day of March of each year, submit to the Director an annual report respecting the hazardous waste received by the Facility pursuant to this Licence during the previous calendar year and the manner in which the waste was treated or disposed as defined in Manitoba Regulation 195/2015 under The Dangerous Goods Handling and Transportation Act. The report shall be made on a form approved by the Director or submitted in a format acceptable to the Director.

Moderations, Alterations and Decommissioning

73. The Licencee shall obtain approval, in writing, from the Director for any proposed alteration or expansion to the Facility which is likely to cause a significant environment effect or could affect compliance with any Clause(s) of this Licence, before proceeding with the alteration.
74. The Licencee shall, at the request of the Director, in the event that the Facility is permanently closed, conduct an investigation in accordance with "Environmental Site Assessments in Manitoba", (June 2016), to the satisfaction of the Director, to identify any contamination which may have resulted from the operation of the Facility.
75. The Licencee shall, where the investigation referred to in Clause 74 of this Licence shows that contamination of the environment has occurred, submit a remediation proposal, within sixty (60) days, to the Director and, upon approval of this proposal by the Director, the required remediation shall be carried out by the Licencee.

Insurance and Financial Assurance

76. The Licencee shall prepare, within 6 months of the date of this Licence, a remediation and closure plan assessment, satisfactory to the Director, that includes, but is not limited to, the following:
- a) estimated cost to assess the impacts of the Facility to soil and groundwater;
 - b) estimated cost to remediate impacts of the Facility identified in the assessment referred to in Clause 76 (a); and
 - c) estimated cost to decommission the Facility.
77. The Licencee shall maintain and post with Manitoba Sustainable Development, in the amount determined in Clause 76 of this Licence:
- a) a permit bond issued by a surety company licenced to do business in the Province of Manitoba;
 - b) an irrevocable letter of credit; or
 - c) another acceptable security satisfactory to the Director.
78. The Permit bond, irrevocable letter of credit, or other security and renewals thereof, referenced in Clause 77 of this Licence, shall remain in place for the duration of the operation and decommissioning of the Facility. The Director may order forfeiture of the permit bond, irrevocable letter of credit, or other security, either in whole or in part, by giving written notice to that effect to the Licencee, upon the Director being satisfied that the Licencee is in breach of any specification,

limit, term or condition of this Licence, or for reimbursement of any costs or expenses incurred by the Province of Manitoba in rectifying environmental damage caused or contributed to by the operation of the Facility.

79. The Licencee shall, every 5 years or more frequently at the Licencee's preference or the request of the Director, carry out a review of the assessment completed pursuant to Clause 76 of this licence and accordingly update the amount of the permit bond, irrevocable letter or credit or other security required by Clause 77 of this licence.
80. The Licencee shall maintain valid Environmental Impairment Liability insurance providing coverage subject to a minimum limit of \$1,000,000 Cdn per occurrence or claim, including coverage for gradual, and sudden and accidental pollution. Coverage to include on-site and off-site clean up costs, and be placed with insurers satisfactory to the Province of Manitoba. The Province of Manitoba is to be added as an Additional Insured on the policy. The policy shall contain a clause stating that the Insurer will give Manitoba 60 days prior written notice in case of a reduction in coverage or policy cancellation.

REVIEW AND REVOCATION

- A. If, in the opinion of the Director, the Licencee has exceeded or is exceeding or has failed or is failing to meet the specifications, limits, terms, or conditions set out in this Licence, the Director may, temporarily or permanently, revoke this Licence.
- B. If, in the opinion of the Director, new evidence warrants a change in the specifications, limits, terms or conditions of this Licence, the Director may require the filing of a new Application pursuant to The Dangerous Goods Handling and Transportation Act.
