SUBJECT: Environment Act Proposal –Stericylce (File No. 5967.00)

Manitoba Sustainable Development, Winnipeg Regional Office of Environmental Compliance and Enforcement Branch has reviewed the above noted Environmental Act Proposal for the operation of a medical waste transfer facility and hazardous waste collection facility and has the following comments to provide:

- Onsite wastewater management has not been addressed in this proposal. Please provide information regarding the proposed system to be installed at the facility.
- Will catch basins and/ or floor drains be installed at the facility? Where would that wastewater be directed?

Dear Cory,

The Historic Resources Branch has no concerns at this time. If at any time, however, heritage resources are encountered in association with these lands during testing and development, the Historic Resources Branch must be immediately contacted. The Historic Resources Branch may require that an acceptable heritage resource management strategy be implemented by the developer to mitigate the effects of development on the heritage resources.

A booklet identifying examples of heritage objects can be accessed from our website:

https://www.gov.mb.ca/chc/hrb/pdf/heritage_objects.pdf

Sincerely,
Suyoko

Hello Cory,

The OFC recommends that:

- the applicant obtain the required building and occupancy permits from the Authority Having Jurisdiction for any new buildings and the alteration, reconstruction, demolition, removal, relocation, and occupancy of all existing buildings, and
- an Emergency Plan be filed and approved by the local Fire Department prior to Occupancy in accordance with the Manitoba Fire Code.

Regards,

Hi,

The Central Region IRMT has no concerns with the proposal. We will rely on other government Departments and Branches to provide comments related to their areas of expertise and responsibility.
