Transfer Station Operating Permit

File No. : 18354

Permit No.: **12721 P2**
Issue Date: **May 9, 2024**

Following the Waste Management Facilities Regulation under The Environment Act, the Rural Municipality of Rosser is hereby permitted to run the Rosser Transfer Station on portions of SW 30-12-01 EPM (on a closed waste disposal ground) within the Rural Municipality of Rosser, Manitoba. Schedule A of this permit identifies the facility.

This permit is subject to being amended, suspended, or revoked under sections 7 and 9 of the Waste Management Facilities Regulation.

General Terms and Operating Conditions

1. This permit expires on May 9, 2029.
2. The operator must maintain and operate the facility following the Waste Management Facilities Regulation and any future amendments and this permit.
3. The operator must:
 - a) review and update the operations manual at least every five years, or at an earlier time if required by the director; and
 - b) submit the operations manual to the director or environment officer upon request.
4. The operator must obtain approval in writing from the director before altering the facility.

Materials Acceptance and Handling

5. The operator must:
 - a) segregate materials collected for recycling or reuse;
 - b) temporarily stockpile these materials in designated areas with clear signage; and
 - c) must maintain these areas to control weeds, vectors, and the quality of the materials.
6. The operator must remove any litter accumulated along the access road and around the perimeter of the site. Litter collection must occur at minimum twice annually or as required by an environment officer.
7. The operator must remove all materials received at the facility regularly or upon the request of an environment officer, within the timeframe specified.
8. The operator must implement control measures to prevent the attraction and sustenance of rodents and scavenging vectors.
9. The operator must not accept any livestock or other animal mortalities at the facility.

Surface Water Management

10. The operator must construct the facility such that all uncontaminated surface water flows to the perimeter ditch and impacted water from all material storage areas is contained within the facility boundaries.

Burning of Specified Waste

11. The operator must only burn:
 - a) separated and readily combustible materials such as boughs, leaves, loose straw, paper products, cardboard, non-salvageable untreated wood, and packing materials derived from wood; and
 - b) only when there is an appropriate volume of materials as identified in clause 11 (a) of this permit.

Composting

12. The operator must, unless otherwise approved by an environment officer, compost only yard and leaf waste.

Monitoring and Reporting Requirements

13. The operator must collect, store, and analyze groundwater monitoring well samples using approved field and laboratory techniques for dissolved analysis. The operator must retain the analytical results in a format acceptable to the environment officer.
14. The operator must sample the groundwater monitoring wells for those parameters identified in Schedule B of this permit once per year, or at a frequency approved by the environment officer.
15. The operator must submit an annual report, in a format acceptable to the environment officer, detailing the sampling methodology, field observations, and results of groundwater sampling analyses, complete with previous results and trends. The operator must submit the report annually to an environment officer no later than December 31st of each year.

Revocation

16. This permit replaces Permit No. 12721 P1, which is expired.
