Re: Holland Waste Transfer Station Permit No. 64996

Dear Ivan Bruneau:

Thank you for your proposal dated February 17, 2022. Please find enclosed Permit No.64996 for the operation of the Holland Waste Transfer Station.

The Rural Municipality of Victoria must comply with this permit as well as all other applicable federal, provincial, and municipal regulations and by-laws. Failure to comply with permit requirements may result in enforcement.

You may appeal this decision to the Minister of Environment, Climate and Parks. If you wish to appeal, send your reasons, in writing, to the Minister's attention by June 5, 2022.

If you have any questions on this matter, please contact Tyler Kneeshaw, Regional Supervisor, Environmental Compliance and Enforcement Branch at EnvCEPortage@gov.mb.ca or 204-239-3608.

Sincerely,

Transfer Station Operating Permit

File No. : 31562

Permit No.: 64996

Issue Date: May 4, 2022

In accordance with the Waste Management Facilities Regulation, made under The Environment Act, the Rural Municipality of Victoria is hereby permitted to operate a transfer station to be known as the Holland Waste Transfer Station (Facility) located at 37166 - 63 RD W on portions of NE 9-7-11 WPM within the Rural Municipality of Victoria.

This Permit is subject to being amended, suspended, or revoked under sections 7 and 9 of the Waste Management Facilities Regulation.

This Permit is issued subject to the following terms and conditions:

General Terms and Operating Conditions

1. This Permit expires on April 30, 2027.
2. The operator shall maintain and operate the Facility as identified in Schedule A of this Permit in accordance with the Waste Management Facilities Regulation and any future amendments thereto, and this Permit.
3. The operator shall develop an operations manual, within 12 months of the date of this Permit, detailing the operation and maintenance for this Facility in accordance with the Waste Management Facilities Regulation and any future amendments thereto. This manual should include but not be limited to a detailed list of the following: waste and recyclable materials accepted; emergency and safety procedures; materials not accepted; materials diverted to; control the presence of animals and insects; odour monitoring and abatement plans, noise management plan, control and monitoring of runoff and fugitive emissions, and maintenance and closure activities. The Operator shall provide the Manual to an Environment Officer upon request.
4. The operator shall maintain at the Facility, unless otherwise approved in writing by an Environment Officer:
 - a) a copy of the operations manual developed in accordance with clause 3 of this Permit; and
 - b) a copy of this Permit.
5. The operator shall obtain approval in writing from the Director of Environmental Approvals Branch for any proposed alterations to the Facility before proceeding with the alteration.

Site Access and Control

6. The operator shall restrict access to the Facility when site supervision is not provided, with a locked gate, barrier or other system approved in writing by an environment officer.

Materials Acceptance and Handling

7. The operator shall, unless otherwise approved in writing by the Director, only accept at the Facility the solid waste generated within the Rural Municipality of Victoria.

8. The operator shall segregate materials collected for recycling or reuse, and shall temporarily stockpile these materials in clearly signed designated areas. These areas must be maintained to control weeds, vectors and quality of the materials.
9. The operator shall remove the materials identified in clause 8 of this Permit regularly or upon the request of an environment officer, within the timeframe specified.
10. The operator shall remove any litter accumulated along the access road and around the perimeter of the site. Litter collection shall occur at minimum twice annually or as required by an environment officer.
11. The operator shall not bury or permanently dispose of any materials at the transfer station without obtaining any written authorization from an environment officer.
12. The operator shall remove the household waste deposited at the Facility at minimum every 30 days or at a frequency required by an environment officer.
13. The operator shall implement control measures to prevent attraction and sustenance of rodents and scavenging vectors.
14. The operator shall not accept any livestock or other animal mortalities at the Facility.

Solid Waste

15. The operator shall dispose of all non-hazardous solid waste collected at the Facility, which is not recycled, only to a waste disposal ground operating under the authority of a permit issued pursuant to the Waste Management Facilities Regulation or any future amendment thereof, or a licence issued pursuant to The Environment Act.

Hazardous Wastes

16. The operator shall collect and dispose of hazardous waste in accordance with The Dangerous Goods Handling and Transportation Act, and other Provincial and Federal Regulations.

Surface Water Management

17. The operator shall construct the Facility such that all uncontaminated surface water flows to the perimeter ditch and impacted water from all material storage areas is contained within the Facility boundaries.

Burning of Specified Waste

18. The operator shall only burn separated and readily combustible materials such as boughs, leaves, loose straw, paper products, cardboard, non-salvageable untreated wood, and packing materials derived from wood, and only when there is an appropriate volume of this material.
19. The operator shall not burn, other than those materials specified in clause 18 of this Permit, any other products or materials, including but not limited to plywood, composite board or other materials constructed with glues, finishes or preservatives, plastics, composites, rubber, manures, chemically treated fabrics, mattresses, finished furniture, or synthetics.

20. The operator shall not burn when there is a fire hazard to surrounding vegetation.

Composting

21. The operator shall compost only yard and leaf waste.

Construction and Commissioning

22. The operator shall submit a closure plan for the existing waste disposal ground to the Director for approval.

23. The operator shall not begin construction of the Facility until the operator has received an approved closure plan in accordance with clause 22 of this Permit.
