Waste Transfer Station Operating Permit

File No.: 28663

Permit No.: 37457 P2

Issue Date: January 09, 2024

Following the Waste Management Facilities Regulation under The Environment Act, the City of Selkirk is hereby permitted to run the Selkirk Waste Transfer Station (facility) on portions of SE 18-14-5 EPM within the Rural Municipality of St. Andrews, Manitoba. Schedule A of this permit identifies the facility.

This permit is subject to being amended, suspended, or revoked under sections 7 and 9 of the Waste Management Facilities Regulation.

General Terms and Operating Conditions

1. This permit expires on January 09, 2029.
2. The operator must maintain and operate the facility following the Waste Management Facilities Regulation and any future amendments, and this permit.
3. The operator must obtain approval in writing from the director before altering the facility.

Materials Acceptance and Handling

4. The operator must segregate materials collected for recycling or reuse, and must temporarily stockpile these materials in clearly signed designated areas. The operator must maintain these areas to control weeds, vectors, and the quality of the materials.
5. The operator must remove all materials received at the facility regularly or upon the request of an environment officer, within the timeframe specified.
6. The operator must implement control measures to prevent the attraction and sustenance of rodents and scavenging vectors.
7. The operator must not accept any livestock or other animal mortalities at the facility.

Hazardous Wastes

8. The operator must collect and dispose of any hazardous waste following The Dangerous Goods Handling and Transportation Act, and other federal, provincial, and municipal regulations.

Surface Water Management

9. The operator must construct the facility such that all uncontaminated surface water flows to the perimeter ditch and impacted water from all material storage areas is contained within the facility boundaries.

Composting

10. The operator must, unless otherwise approved by an environment officer, compost only yard and leaf waste.

Monitoring and Reporting Requirements

11. The operator must collect, store, and analyze groundwater monitoring well samples using approved field and laboratory techniques for dissolved analysis. The operator must retain the analytical results in a format acceptable to the environment officer.
12. The operator must sample the groundwater monitoring wells for those parameters identified in Schedule B of this permit once per year, or at a frequency approved by the environment officer.
13. The operator must submit an annual report, in a format acceptable to the environment officer, detailing the sampling methodology, field observations, and results of groundwater sampling analyses, complete with previous results and trends. The operator must submit the report annually to an environment officer no later than December 31st of each year.

Revocation

14. This permit replaces Permit No. 37457 P1, which is hereby rescinded.
