Dear Emanuel Toews:

**Re: Bristol Transfer Station Permit No. 39480 P2**

Please find enclosed Permit No. 39480 P2 in response to your application dated June 25, 2024, and additional information received on September 24, 2024. You wish to continue to operate the Bristol Transfer Station on portions NW 32-07-04 EPM at 405 Kuzenko Street in the Town of Niverville.

Bristol Hauling Inc. must follow all permit requirements and federal, provincial, and municipal regulations and by-laws.

Anyone affected by this decision may appeal, in writing, to the Minister of Environment and Climate Change at [minecc@manitoba.ca](mailto:minecc@manitoba.ca) by November 30, 2024. The permit is available on the public registry at <https://www.gov.mb.ca/sd/eal/registries/6000wmfpermits/index.html>.

If you have any questions about this approval, please contact Allan Cyrenne, Acting Regional Supervisor, Environmental Compliance and Enforcement Branch at [EnvCEEastern@gov.mb.ca](mailto:EnvCEEastern@gov.mb.ca) or 204-485-6410.

Sincerely,

# Transfer Station Operating Permit

File No. : 57062

Permit No.: 39480 P2

Issue Date: October 30, 2024

Following the Waste Management Facilities Regulation under The Environment Act, Bristol Hauling Inc. is hereby permitted to run the Bristol Transfer Station on portions of NW 32-07-04 EPM at 405 Kuzenko Street in the Town of Niverville, Manitoba. Schedule A of this permit identifies the facility.

This permit is subject to being amended, suspended, or revoked under sections 7 and 9 of the Waste Management Facilities Regulation.

## Definition

in this permit,

**"operator"** means the holder of a licence or permit issued in respect of the waste management facility.

**"odour nuisance"** means a continuous or repeated odour, smell or aroma, in an affected area, which is offensive, obnoxious, troublesome, annoying, unpleasant or disagreeable to a person:

- a) residing in an affected area;
- b) working in an affected area; or
- c) present at a location in an affected area which is normally open to members of the public;

if the odour, smell or aroma:

- d) is the subject of at least 5 written complaints, received by the director in a form satisfactory to the director and within a 90-day period, from 5 different persons falling within clauses (a), (b) or (c), who do not live in the same household; or
- e) is the subject of at least one written complaint, received by the director in a form satisfactory to the director, from a person falling within clauses (a), (b) or (c) and the director is of the opinion that if the odour, smell or aroma had occurred in a more densely populated area there would have been at least 5 written complaints received within a 90-day period, from 5 different persons who do not live in the same household.

**"transfer station"** means a facility at which solid waste is received and temporarily stored for the purpose of transporting it to another site for processing, recycling or disposal.

## General Terms and Operating Conditions

1. This permit expires on October 30, 2029.
2. The operator must maintain and operate the facility following the Waste Management Facilities Regulation and any future amendments and this permit.
3. The operator must:
  - a) review and update the operations manual at least every five years, or at an earlier time if required by the director; and
  - b) submit the operations manual to the director or environment officer upon request.
4. The operator must obtain approval in writing from the director before altering the facility.

### **Odour Nuisance**

5. The operator must not cause or permit an odour nuisance to be created as a result of the construction, operation, or alteration of the facility, and must take such steps as the director may specify to eliminate or mitigate an odour nuisance.

### **Site Access and Control**

6. The operator must restrict access to the facility when the site is not open to the public with a locked gate, barrier or other system approved in writing by an environment officer.

### **Materials Acceptance and Handling**

7. The operator must:
  - a) segregate materials collected for recycling or reuse;
  - b) temporarily stockpile these materials in designated areas with clear signage; and
  - c) must maintain these areas to control weeds, vectors, and the quality of the materials.
8. The operator must remove all materials received at the facility regularly or upon the request of an environment officer, within the timeframe specified.
9. The operator must remove any litter accumulated along the access road and around the perimeter of the site. Litter collection must occur at minimum twice annually or as required by an environment officer.
10. The operator must implement control measures to prevent the attraction and sustenance of rodents and scavenging vectors.
11. The operator must not accept any livestock or other animal mortalities at the facility.

### **Surface Water Management**

12. The operator must construct the facility such that all uncontaminated surface water flows to the perimeter ditch and impacted water from all material storage areas is contained within the facility boundaries.

### **Revocation**

13. This permit replaces Permit No. 36234 P1, which is expired.
