Dear Sandra Davies:

Re: Hecla Transfer Station Permit No. 41577 P2

Please find enclosed Permit No. 41577 P2 in response to your application dated October 3, 2024, and additional information received on March 11, 2025. You wish to continue to operate the Hecla Transfer Station situated on portions of SE 09-24-06 EPM in the Hecla/Grindstone Provincial Park, Manitoba.

Environment and Climate Change must follow all permit requirements and federal, provincial, and municipal regulations and by-laws.

Anyone affected by this decision may appeal, in writing, to the Minister of Environment and Climate Change at minecc@manitoba.ca by April 25, 2025. The permit is available on the public registry at <https://www.gov.mb.ca/sd/eal/registries/6000wmfpermits/index.html>.

If you have any questions about this approval, please contact Tyler Kneeshaw, Regional Supervisor, Environmental Compliance and Enforcement Branch at EnvCEInterlake@gov.mb.ca or 204-239-3608.

Sincerely,

Transfer Station Operating Permit

File No. : 27691

Permit No.: 41577 P2

Issue Date: March 25, 2025

Following the Waste Management Facilities Regulation under The Environment Act, Manitoba Environment and Climate Change is hereby permitted to operate the Hecla Transfer Station situated on portions of SE 09-24-06 EPM in the Hecla/Grindstone Provincial Park, Manitoba. Schedule A of this permit identifies the facility.

This permit is subject to being amended, suspended, or revoked under sections 7 and 9 of the Waste Management Facilities Regulation.

Definition

in this permit,

"operator" means the holder of a licence or permit issued in respect of the waste management facility.

"odour nuisance" means a continuous or repeated odour, smell or aroma, in an affected area, which is offensive, obnoxious, troublesome, annoying, unpleasant or disagreeable to a person:

- a) residing in an affected area;
- b) working in an affected area; or
- c) present at a location in an affected area which is normally open to members of the public;

if the odour, smell or aroma:

- d) is the subject of at least 5 written complaints, received by the director in a form satisfactory to the director and within a 90-day period, from 5 different persons falling within clauses (a), (b) or (c), who do not live in the same household; or
- e) is the subject of at least one written complaint, received by the director in a form satisfactory to the director, from a person falling within clauses (a), (b) or (c) and the director is of the opinion that if the odour, smell or aroma had occurred in a more densely populated area there would have been at least 5 written complaints received within a 90-day period, from 5 different persons who do not live in the same household.

"transfer station" means a facility at which solid waste is received and temporarily stored for the purpose of transporting it to another site for processing, recycling or disposal.

General Terms and Operating Conditions

1. This permit expires on March 25, 2030.
2. The operator must maintain and operate the facility following the Waste Management Facilities Regulation and any future amendments and this permit.
3. The operator must:
 - a) review and update the operations manual at least every five years, or at an earlier time if required by the director; and
 - b) submit the operations manual to the director or environment officer upon request.
4. The operator must obtain approval in writing from the director before altering the facility.

Odour Nuisance

5. The operator must not cause or permit an odour nuisance to be created as a result of the construction, operation, or alteration of the facility, and must take such steps as the director may specify to eliminate or mitigate an odour nuisance.

Site Access and Control

6. The operator must restrict access to the facility when site supervision is not provided, with a locked gate, barrier or other system approved in writing by an environment officer.
7. The operator must install and maintain perimeter fence and use preventative measures, to the satisfaction of the director, to prevent scavenging by animals at the facility.

Materials Acceptance and Handling

8. The operator, unless approved in writing by the director, must only accept solid waste from sources within the Hecla/Grindstone Provincial Park.
9. The operator must:
 - a) segregate materials collected for recycling or reuse;
 - b) temporarily stockpile these materials in designated areas with clear signage; and
 - c) must maintain these areas to control weeds, vectors, and the quality of the materials.
10. The operator must remove all materials received at the facility regularly or upon the request of an environment officer, within the timeframe specified.
11. The operator must not allow the deposition of industrial wastes, metal goods, construction and demolition wastes, fish wastes or tires at this facility without the written approval of the director.
12. The operator must remove any litter accumulated along the access road and around the perimeter of the site. Litter collection must occur at minimum twice annually or as required by an environment officer.
13. The operator must implement control measures to prevent the attraction and sustenance of rodents and scavenging vectors.
14. The operator must not accept any livestock or other animal mortalities at the facility.

Surface Water Management

15. The operator must construct the facility such that all uncontaminated surface water flows to the perimeter ditch and impacted water from all material storage areas is contained within the facility boundaries.

Burning of Specified Waste

16. The operator must only burn:
 - a) separated and readily combustible materials such as boughs, leaves, loose straw, paper products, cardboard, non-salvageable untreated wood, and packing materials derived from wood; and

- b) when there is an appropriate volume of materials as identified in clause 16 a) of this permit.

Revocation

17. This permit replaces Permit No. 41577 P1, which is expired.
