THIS OPERATING PERMIT is issued subject to the following TERMS AND CONDITIONS:

General Terms and Operating Conditions

1. This permit expires on March 31, 2024.
2. The Operator shall maintain and operate Emterra Environmental (the Facility) in accordance with the most current version of the Waste Management Facilities Regulation (M.R. 37/2016) and this Operating Permit.
3. The Operator shall maintain an Operations Manual detailing the operation and maintenance for this Facility in accordance with M.R. 37/2016. This manual should include but not be limited to a detailed list of recyclable materials accepted, emergency and safety procedures, location where materials not accepted are diverted to, odour monitoring and abatement plans, noise management plan, litter control and decommissioning plans. The Operator shall provide the Manual to an Environment Officer upon request.
4. The Operator shall maintain a copy of the Operations Manual developed pursuant to M.R. 37/2016 and a copy of this Operating Permit at the Facility or where the Facility is managed.
5. The Operator shall obtain approval in writing from the Director for any proposed alterations to the Facility before proceeding with the alteration.
6. The Operator shall implement control measures to prevent attraction and sustenance of rodents and scavenging vectors.

Responsible Party

7. The Operator shall designate an employee, within sixty (60) days of the date of issuance of this Permit, as the Facilities Environmental Coordinator, whose job description will include assisting the Operator in complying with the limits, terms and conditions in this Permit and assisting Senior Management to manage environmental issues at the Facility. The name of the Environmental Coordinator shall be submitted in writing to the Director within fourteen (14) days of appointment and any subsequent appointment.

Site Access and Control

8. The Operator shall not allow public drop off of materials at the Facility.
9. The Operator shall provide site supervision when the public can access the processing area of the Facility.
10. The Operator shall restrict access to the Facility when site supervision is not provided with a locked gate or barrier.

Noise and Odours

11. The Operator shall not cause or permit an odour nuisance to be created as a result of the construction, operation, or alteration of the Facility, and shall take such steps as the Director may specify to eliminate or mitigate an odour nuisance.
12. The Operator shall not cause or permit a noise nuisance to be created as a result of the operation or alteration of the Facility, and shall take such steps as the Director may require to eliminate or mitigate a noise nuisance.

Materials Acceptance and Handling

13. The Operator shall not allow the deposition of industrial wastes, metal goods, construction and demolition wastes or tires at this Facility without the written approval of the Director.
14. Materials collected for recycling or reuse at the Facility must be segregated and temporarily stockpiled in designated areas.
15. The Operator shall not store loose or unsorted recyclables outside of the building without approval of an Environment Officer.
16. The Operator shall not store any solid waste at the Facility except in appropriate storage bins.
17. The Operator shall remove any litter accumulated along the access road and around the perimeter of the site at minimum weekly or as required by an Environment Officer.
18. Any waste or materials separated out during the process that is not to be reused, processed or sold shall be stored in a manner to prevent a nuisance and removed weekly or at a frequency required by an Environment Officer.
19. The Operator shall dispose of solid waste at a waste disposal ground operating under the authority of a permit issued pursuant to the Waste Management Facilities Regulation 37/2016 or any future amendment thereof, or a licence issued pursuant to The Environment Act.

Hazardous Wastes

20. The Operator shall collect and dispose of hazardous waste in accordance with The Dangerous Goods Handling and Transportation Act, other Provincial and Federal Regulations.

Fire Reporting

21. The Operator shall in the event of a fire which continues in excess of thirty (30) minutes or requires fire suppression assistance from personnel outside of the Facility (e.g., fire department) report the fire by calling (204) 944-4888 (toll free 1-855-944-4888), identifying the type of materials involved and the location of the fire.

Burning of Specified Waste

22. The Operator shall not allow burning at this Facility.

Environmental Emergency Reporting

23. The Operator shall maintain an Emergency Response Plan in accordance with the Canadian Centre for Occupational Health and Safety emergency planning guidelines or other document acceptable to the Director.

Records and Reporting

24. The Operator shall maintain a record of the materials received, and removed from the Facility, and make the record available at the request of an Environment Officer.

25. The Operator shall, unless otherwise approved by the Director, on or before the 31st day of March of each year, prepare an annual report with respect to all activities at the Facility during the previous calendar year. The format of the report shall be approved by the Director and contain at minimum: monthly breakdown of recyclables received, processed, and shipped, and the mass of waste and contaminated materials removed from the Facility.

Decommissioning Plan

26. The Operator shall review and update the Decommissioning Plan, as required and notify the Department at least three (3) months prior to implementing the decommissioning plan.
27. The Operator shall implement and maintain the approved Decommissioning Plan as approved by the Director.

Revocation

28. This Permit replaces Permit No. 42681 which is hereby rescinded.
