Dear Joey Champagne:

**Re: Tantalum Mining Corporation of Canada – TANCO Waste Transfer Permit
No. 47496**

Please find enclosed Permit No. 47496 in response to your proposal dated August 23, 2023. You wish to operate the TANCO Waste Transfer Station on portions of 15-17-15 EPM within the Unorganized Territory, Manitoba.

Tantalum Mining Corporation of Canada must follow all permit requirements and federal, provincial, and municipal regulations and by-laws.

Anyone affected by this decision may appeal, in writing, to the Minister of Environment and Climate Change at minecc@manitoba.ca by December 22, 2023. The permit is available on the public registry at <https://www.gov.mb.ca/sd/eal/registries/6000wmfpermits/index.html>.

If you have any questions on this approval, please contact Allan Cyrenne, Acting Regional Supervisor, Environmental Compliance and Enforcement Branch at EnvCEEastern@gov.mb.ca or 204-346-6110.

Sincerely,

Transfer Station Operating Permit

File No. : 7191

Permit No.: 47496

Issue Date: November 22, 2023

Following the Waste Management Facilities Regulation under The Environment Act, Tantalum Mining Corporation of Canada is hereby permitted to run the TANCO Waste Transfer Station (facility) on portions of 15-17-15 EPM within the Unorganized Territory, Manitoba. Schedule A of this permit identifies the facility.

This permit is subject to being amended, suspended, or revoked under Sections 7 and 9 of the Waste Management Facilities Regulation.

General Terms and Operating Conditions

1. This permit expires on November 22, 2028.
2. The operator must maintain and operate the facility following the Waste Management Facilities Regulation and any future amendments and this permit.
3. The operator must obtain approval in writing from the director before altering the facility.

Materials Acceptance and Handling

4. The operator must segregate materials collected for recycling or reuse and must temporarily stockpile these materials in clearly signed designated areas. The operator must maintain these areas to control weeds, vectors, and the quality of the materials.
5. The operator must remove all materials received at the facility regularly or upon the request of an environment officer, within the timeframe specified.
6. The operator must implement control measures to prevent the attraction and sustenance of rodents and scavenging vectors.
7. The operator must not accept any livestock or other animal mortalities at the facility.

Surface Water Management

8. The operator must construct the facility such that all uncontaminated surface water flows to the perimeter ditch and impacted water from all material storage areas is contained within the facility boundaries.

Revocation

9. This permit replaces RRR-108, which is hereby rescinded.
