Transfer Station Operating Permit

File No. : 50050

Permit No.: 35789 P2

Issue Date: July 24, 2024

Following the Waste Management Facilities Regulation under The Environment Act, the Rural Municipality of Bifrost-Riverton is hereby permitted to run the Pebble Beach Transfer Station on portions of Lots A to F, Plan 35982 in NE 27-21-04 EPM within the Rural Municipality of Bifrost-Riverton, Manitoba. Schedule A of this permit identifies the facility.

This permit is subject to being amended, suspended, or revoked under sections 7 and 9 of the Waste Management Facilities Regulation.

General Terms and Operating Conditions

1. This permit expires on July 24, 2029.
2. The operator must maintain and operate the facility following the Waste Management Facilities Regulation and any future amendments and this permit.
3. The operator must:
 - a) review and update the operations manual at least every five years, or at an earlier time if required by the director; and
 - b) submit the operations manual to the director or environment officer upon request.
4. The operator must obtain approval in writing from the director before altering the facility.

Materials Acceptance and Handling

5. The operator must:
 - a) segregate materials collected for recycling or reuse.
 - b) temporarily stockpile these materials in designated areas with clear signage; and
 - c) must maintain these areas to control weeds, vectors, and the quality of the materials.
6. The operator must remove all materials received at the facility regularly or upon the request of an environment officer, within the timeframe specified.
7. The operator must implement control measures to prevent the attraction and sustenance of rodents and scavenging vectors.
8. The operator must not accept any livestock or other animal mortalities at the facility.

Hazardous Wastes

9. The operator must not collect, store, and dispose of any hazardous waste at the facility without a licence issued under The Dangerous Goods Handling and Transportation Act. If any incidental hazardous waste is found disposed of at the facility, it must be managed following The Dangerous Goods Handling and Transportation Act, and other federal, provincial, and municipal regulations.

Surface Water Management

10. The operator must construct the facility such that all uncontaminated surface water flows to the perimeter ditch and impacted water from all material storage areas is contained within the facility boundaries.

Revocation

11. This permit replaces Permit No. 35789 P1, which is expired.
