Re: Deloraine Water Transfer Station

Dear Pamela Hainsworth:

Enclosed please find the Permit for your waste transfer station.

Please note that failure to comply with any condition of the Permit may result in prosecution pursuant to the Waste Management Facilities Regulation.

Pursuant to Section 27 of The Environment Act, this Permit may be appealed to the Minister of Conservation and Climate by any person who is affected by the issuance of this permit within 30 days of the date of issue.

In addition to the enclosed Permit requirements, please be informed that all other applicable federal, provincial and municipal regulations and by-laws must be complied with.

If you have any questions concerning the Permit or procedures, please call Kristy Forrestall, District Supervisor, Environmental Compliance and Enforcement in Brandon at Kristy.Forrestall@gov.mb.ca or 204-573-0518.

Sincerely,

A handwritten signature in blue ink that reads "S. Kohler".

Shannon Kohler, Director

Transfer Station Operating Permit

Permit No: 8003 P1

Client File: 16644

In accordance with the Waste Management Facilities Regulation, made under The Environment Act, the **Municipality of Deloraine-Winchester** is hereby permitted to operate a **Transfer Station** to be known as the **Deloraine Waste Transfer Station** situated at **SE 11-3-23 WPM** in the Municipality of Deloraine-Winchester, Province of Manitoba.

THIS OPERATING PERMIT is subject to being AMENDED, SUSPENDED or REVOKED under section 7 of the Waste Management Facilities Regulation.

THIS OPERATING PERMIT is issued subject to the following TERMS AND CONDITIONS:

General Terms and Operating Conditions

1. This permit expires on August 31, 2025.
2. The Operator shall maintain and operate the Deloraine Waste Transfer Station (the Facility) in accordance with the most current version of the Waste Management Facilities Regulation (M.R. 37/2016) and this Operating Permit.
3. The Operator shall develop an Operations Manual detailing the operation and maintenance for this Facility in accordance with M.R. 37/2016. This manual should include but not be limited to a detailed list of waste and recyclable materials accepted, emergency and safety procedures, composting materials accepted and composting practices, location where materials not accepted are diverted to, maintenance practices and closure plans. The Operator shall provide the Manual to an Environment Officer upon request.
4. The Operator shall maintain a copy of the Operations Manual developed pursuant to M.R. 37/2016, a copy of the Waste Management Facilities Regulation, and a copy of this Operating Permit at the Facility or where the Facility is managed, accessible to all operators.
5. The Operator shall obtain approval in writing from the Director for any proposed alterations to the Facility before proceeding with the alteration.

Site Access and Control

6. The Operator shall restrict access to the Facility when site supervision is not provided, with a locked gate, barrier or other system approved in writing by an Environment Officer.

Materials Acceptance and Handling

7. Materials collected for recycling or reuse must be segregated and temporarily stockpiled in clearly signed designated areas. These areas must be maintained to control weeds, vectors and quality of the materials. The Operator shall have the materials removed regularly or upon the request of an Environment Officer, within the timeframe specified.
8. The Operator shall remove any litter accumulated along the access road and around the perimeter of the site. Litter collection shall occur at minimum twice annually or as required by an Environment Officer.
9. The Operator shall not bury or permanently dispose of any materials at the transfer station without written authorization from the Environment Officer.
10. Ashes, shingles, recyclables, construction and demolition materials and other non-perishable wastes must be removed from the Facility in accordance with the Operations Manual or upon the request of an Environment Officer, within the timeframe specified.
11. The household waste deposited at the Facility shall be removed at minimum every thirty (30) days or at a frequency required by an Environment Officer.
12. The Operator shall implement control measures to prevent attraction and sustenance of rodents and scavenging vectors.
13. The Operator shall not accept any livestock or other animal mortalities at the Facility.

Hazardous Wastes

14. The Operator shall collect and dispose of hazardous waste in accordance with The Dangerous Goods Handling and Transportation Act, other Provincial and Federal Regulations.

Surface Water Management

15. The site shall be constructed such that all uncontaminated surface water flows to the perimeter ditch and impacted water from all material storage areas shall be contained within the Facility boundaries.

Composting

16. The Operator shall compost only yard and leaf waste. Any other feedstock requires approval from the Environment Officer, prior to acceptance.

Burning of Specified Waste

17. The Operator shall only burn separated and readily combustible materials such as boughs, leaves, loose straw, paper products, cardboard, non-salvageable untreated wood, and packing materials derived from wood, and only when there is an appropriate volume of this material. Plywood, composite board or other materials

constructed with glues, finishes or preservatives must not be burned.

18. The Operator shall not burn any other products or materials; including but not limited to plastics, composites, rubber, manures, chemically treated fabrics, mattresses, finished furniture, or man-made synthetics.

Revocation

19. This Permit replaces Permit No. RRR-115 which is hereby rescinded.
