Subject: File 6026.00 Vita Health Products Inc. - EAP Additional Info Request

Hello Stephen,

I have reviewed the subject Proposal and I would like you to address the following two comments:

1. The legal description of the facility indicated in the proposal includes Parcels A to D Plan 29058, however the Status of Title refers only Parcels C & D Plan 29058. Please confirm which one is correct? If Parcels A & B plan 29058 are part of the legal description, you need to provide the Status of title for that portion.
2. The manufacturing process that involves coating utilizes hot air blow to dry the product. However, there is no discussion with respect to potential air emissions from the drying process.
3. Please confirm that there is no drying stage used to attain a required moisture content of the tablets after the compression process. If any drying is taking place, please address how potential air emissions are mitigated.

Regards

Hello Josee,

Thank you for your Proposal submitted on July 3, 2019 pursuant to The Environment Act. The proposal will be a Class 2 Development as a manufacturing facility. I am the contact person assigned to co-ordinate the review and assessment of your Proposal. I may be in contact with you for further information as required.

Please contact me if you have any questions.

Regards,

***Eshetu Beshada, PhD, P. Eng.
