**SUBJECT: RM of Gimli Evaporation Pond – File 6090.00 – Environment Act Proposal –
Environmental Compliance and Enforcement Comments**

Diageo's dry house cleaning wastewater and annual maintenance shutdown wastewater were previously treated by the Gimli Waste Water Treatment Plant, which contributed to odour issues. As such, Manitoba Conservation and Climate, Environmental Compliance and Enforcement, recommends the proponent conduct an odour impact study to determine any odour concerns that may develop at the site.

The proponent should develop a complaint response plan in order to respond should odours become a concern at the site.

We also recommend the proponent develops a contingency plan in the event the evaporation pond's wastewater and precipitation capacity exceeds its rate of evaporation.

If the proponent has any questions, please contact Michelle Ewacha, Environment Officer, at Michelle.Ewacha@gov.mb.ca or 204-904-8354.

No concerns at this time.

If at any time, however, heritage resources are encountered in association with these lands during testing and development, the Historic Resources Branch may require that an acceptable heritage resource management strategy be implemented by the developer to mitigate the effects of development on the heritage resources.

If you have any questions or comments, contact the Archaeological Assessment Services Unit above.

**SUBJECT: Environment Act Proposal Review – File 6090.00
RM of Gimli Evaporation Pond – SW ¼ 10-21-3 EPM**

On behalf of Municipal Relations, I have reviewed this Environment Act Proposal for a proposed evaporation pond in the R.M. of Gimli. The subject lands are designated “Agricultural Area” pursuant to the Eastern Interlake Development Plan and zoned “AG – Agricultural General Zone” pursuant to R.M. of Gimli Zoning By-law 11-0013.

Community Planning has no concerns with the Environment Act Proposal (File 6090.00).

Thank you for the opportunity to review.

Sincerely,

Larissa Sveinson
A/Regional Manager
