Winnipeg MB R3H 0W4**RE: Vivian Sand Extraction Project (File # 6119.00) – Environment Act Proposal Review Responses to the Technical Advisory Committee (TAC)**

Dear Ms. Winsor,

On behalf of CanWhite Sands Corp. (CanWhite), enclosed are responses to the Technical Advisory Committee (TAC) comments received from you on November 1, 2021 regarding the Vivian Sand Extraction Project (the 'Project') Environment Act Proposal (EAP) submitted to Manitoba Conservation and Climate on July 23, 2021 as part of the Environment Act Licence application for the Project.

Responses to the TAC review comments are attached to this cover letter and include the following.

- **Table 1 - Responses to Technical Advisory Committee (TAC) Review Comments**, including the following attachment:
  - Attachment A: Preliminary Traffic Projection Memorandum

In response to TAC comments, CanWhite will be implementing the following Project additional mitigation measures:

- To further mitigate the potential for nuisance noise:
  - CanWhite will have a Noise Mitigation Plan in place prior to initiating Project operations.
- To further mitigate potential Project effects on wildlife movements:
  - Woody material will not be deposited next to standing timber or shrubs.
  - Cleared material will not be piled in a manner that would potentially impede wildlife movement.

Responses to public questions and comments will be provided in an upcoming separate response submission: 'Table 2: Responses to Public Review Comments'.

If you have any questions regarding the proposed Project, please contact me at your earliest convenience.

Yours sincerely,

Marlene Gifford
