Re: PADCOM Potash Solution Mining Project (File 6126.00) - Record Drawings

Dear Siobhan Burland Ross:

Kontzamanis Graumann Smith MacMillan Inc. (KGS Group) is submitting this letter on behalf of Potash and Agri Development Corporation of Manitoba Ltd. (PADCOM) regarding Environment Act Licence (EAL No. 3375) that was issued on May 30, 2022 for their Potash Solution Mining Project (the Project). In accordance with Clause 65 of the Licence, PADCOM is required to submit a set of Record Drawings for the development within one year, which would be May 30, 2023. KGS Group is in the process of preparing the required drawings, however, construction has been delayed while waiting for the Mine Closure Plan to be approved. As such, on behalf of PADCOM, KGS Group is requesting that the deadline to submit the Record Drawings be extended to March 3, 2024, 1-year from the date the Director of Mines approved the Mine Closure Plan.

Should you have any questions or wish to discuss this matter further, please do not hesitate to contact the undersigned.

Yours truly,

Shaun Moffatt, M.Sc.
Senior Environmental Scientist

SFM/jr
