

Notice of Environment Act Proposal

Manitoba Conservation and Climate has received a proposal pursuant to The Environment Act regarding the following operation and invites public participation in the review process:

MUNICIPALITY OF BOISSEVAIN-MORTON – BOISSEVAIN AERATED WASTEWATER TREATMENT LAGOON WITH NITRIFICATION – FILE: 6133

On behalf of the Municipality of Boissevain-Morton, Stantec Consulting Ltd. has filed an Environment Act proposal for construction and operation of an aerated wastewater treatment lagoon with post lagoon nitrification. The construction site is located at SE 11-04-20 W, in the Municipality of Boissevain-Morton, approximately 5 km north of Boissevain, adjacent to an existing waste disposal ground. The facility would consist of a two-cell aerated lagoon, two submerged attached growth reactor cells, a truck dump structure, operations building, chemical storage and feed system for phosphorus removal, disinfection, and effluent monitoring. Incoming wastewater would be conveyed to the new lagoon via a new lift station and forcemain. Effluent would be discharged into Cherry Creek via an effluent lift station and return forcemain.

Anyone likely to be affected by the above operation and who wishes to comment on the proposal should contact Bereket Assefa, Senior Environmental Engineer, in writing or by email at Bereket.Assefa@gov.mb.ca not later than December 17, 2021. Further information is available from the Online Public Registry: www.gov.mb.ca/sd/eal/registries/

Information submitted in response to this proposal is considered public information and will be made available to the proponent and placed on the public registry established in accordance with section 17 of The Environment Act.
