Dear Colleen Draper:

Re: Environment Act Proposal Review of File no. 6013.10 and 6219.00

Thank you for the Environment Act Proposals received on March 18, 2024, for the water treatment plant, and March 11, 2025, for the well field expansion.

As confirmed during our telephone conversation on July 2, 2025, the Rural Municipality of Springfield intends to consolidate these two proposals and pursue a single Environment Act Licence covering these two developments.

As these two developments are related, the department will proceed with a combined environmental assessment under the File no. 6013.10. The File no. 6219.00 associated with the water treatment plant development will be closed and the departmental database will be updated to reflect this change. All documentation and correspondence related to both proposals will be maintained under File no. 6013.10.

This letter will be posted on the public registry for both file numbers for transparency.

If you have any questions on this matter, please contact Jay Mak, Senior Environmental Engineer, Environmental Approvals Branch at 204-619-0709 or Jay.Mak@gov.mb.ca.

Sincerely,

Original Signed By
Agnes Wittmann
Director
The Environment Act
