

Campground Tips

- Help prevent the spread of aquatic invasive species. Always “Clean, Drain, Dry and Dispose” when using watercraft or water-related equipment.
- Build no fires except in a designated firepit or use a camp stove. Before leaving make sure your fire is completely out.
- Please! Do not litter.
- Be sensitive to wildlife. Bears can be dangerous and should not be fed. Food must be stored away from your campsite, preferably in a locked vehicle, to avoid attracting hungry animals. Do not store food in your tent.
- The use of insect repellent will add to your comfort.
- Learn to recognize and avoid poisonous plants such as poison ivy.
- In case of injury or illness contact a Campground Attendant or Park Patrol Officer. They can assist you to reach medical help.
- Canoeists and hikers travelling in backcountry areas should advise a friend of their intended destination and anticipated length of trip.
- Backcountry camping is only allowed at designated campsites.
- It is illegal to use or transport elm firewood.
- Moving firewood can spread harmful invasive species and destroy our forests. Protect Manitoba’s trees. Don’t move firewood.

Childs Lake Campground

- The fresh spring fed lake is a legacy of glacial times

Fed by fresh springs, the blue-green water of Childs Lake welcomes campers to Duck Mountain Provincial Park. Pitch your tent in the campground or relax in one of the yurts. Enjoy the nearby beach and use the convenient boat docks and launches for a day out on the water.

Childs Lake is teeming with fish - trophy sized fish. In fact, in 1981, a Kokanee measuring a whopping 54.6 centimetres (21.5 inches) was caught here. Today the record stillstands as the longest fish of that type caught in Manitoba. Although Kokanee are no longer stocked, Lake Trout, Splake, Northern Pike and Walleye can be caught. The clear, deep lake is also popular with scuba divers.

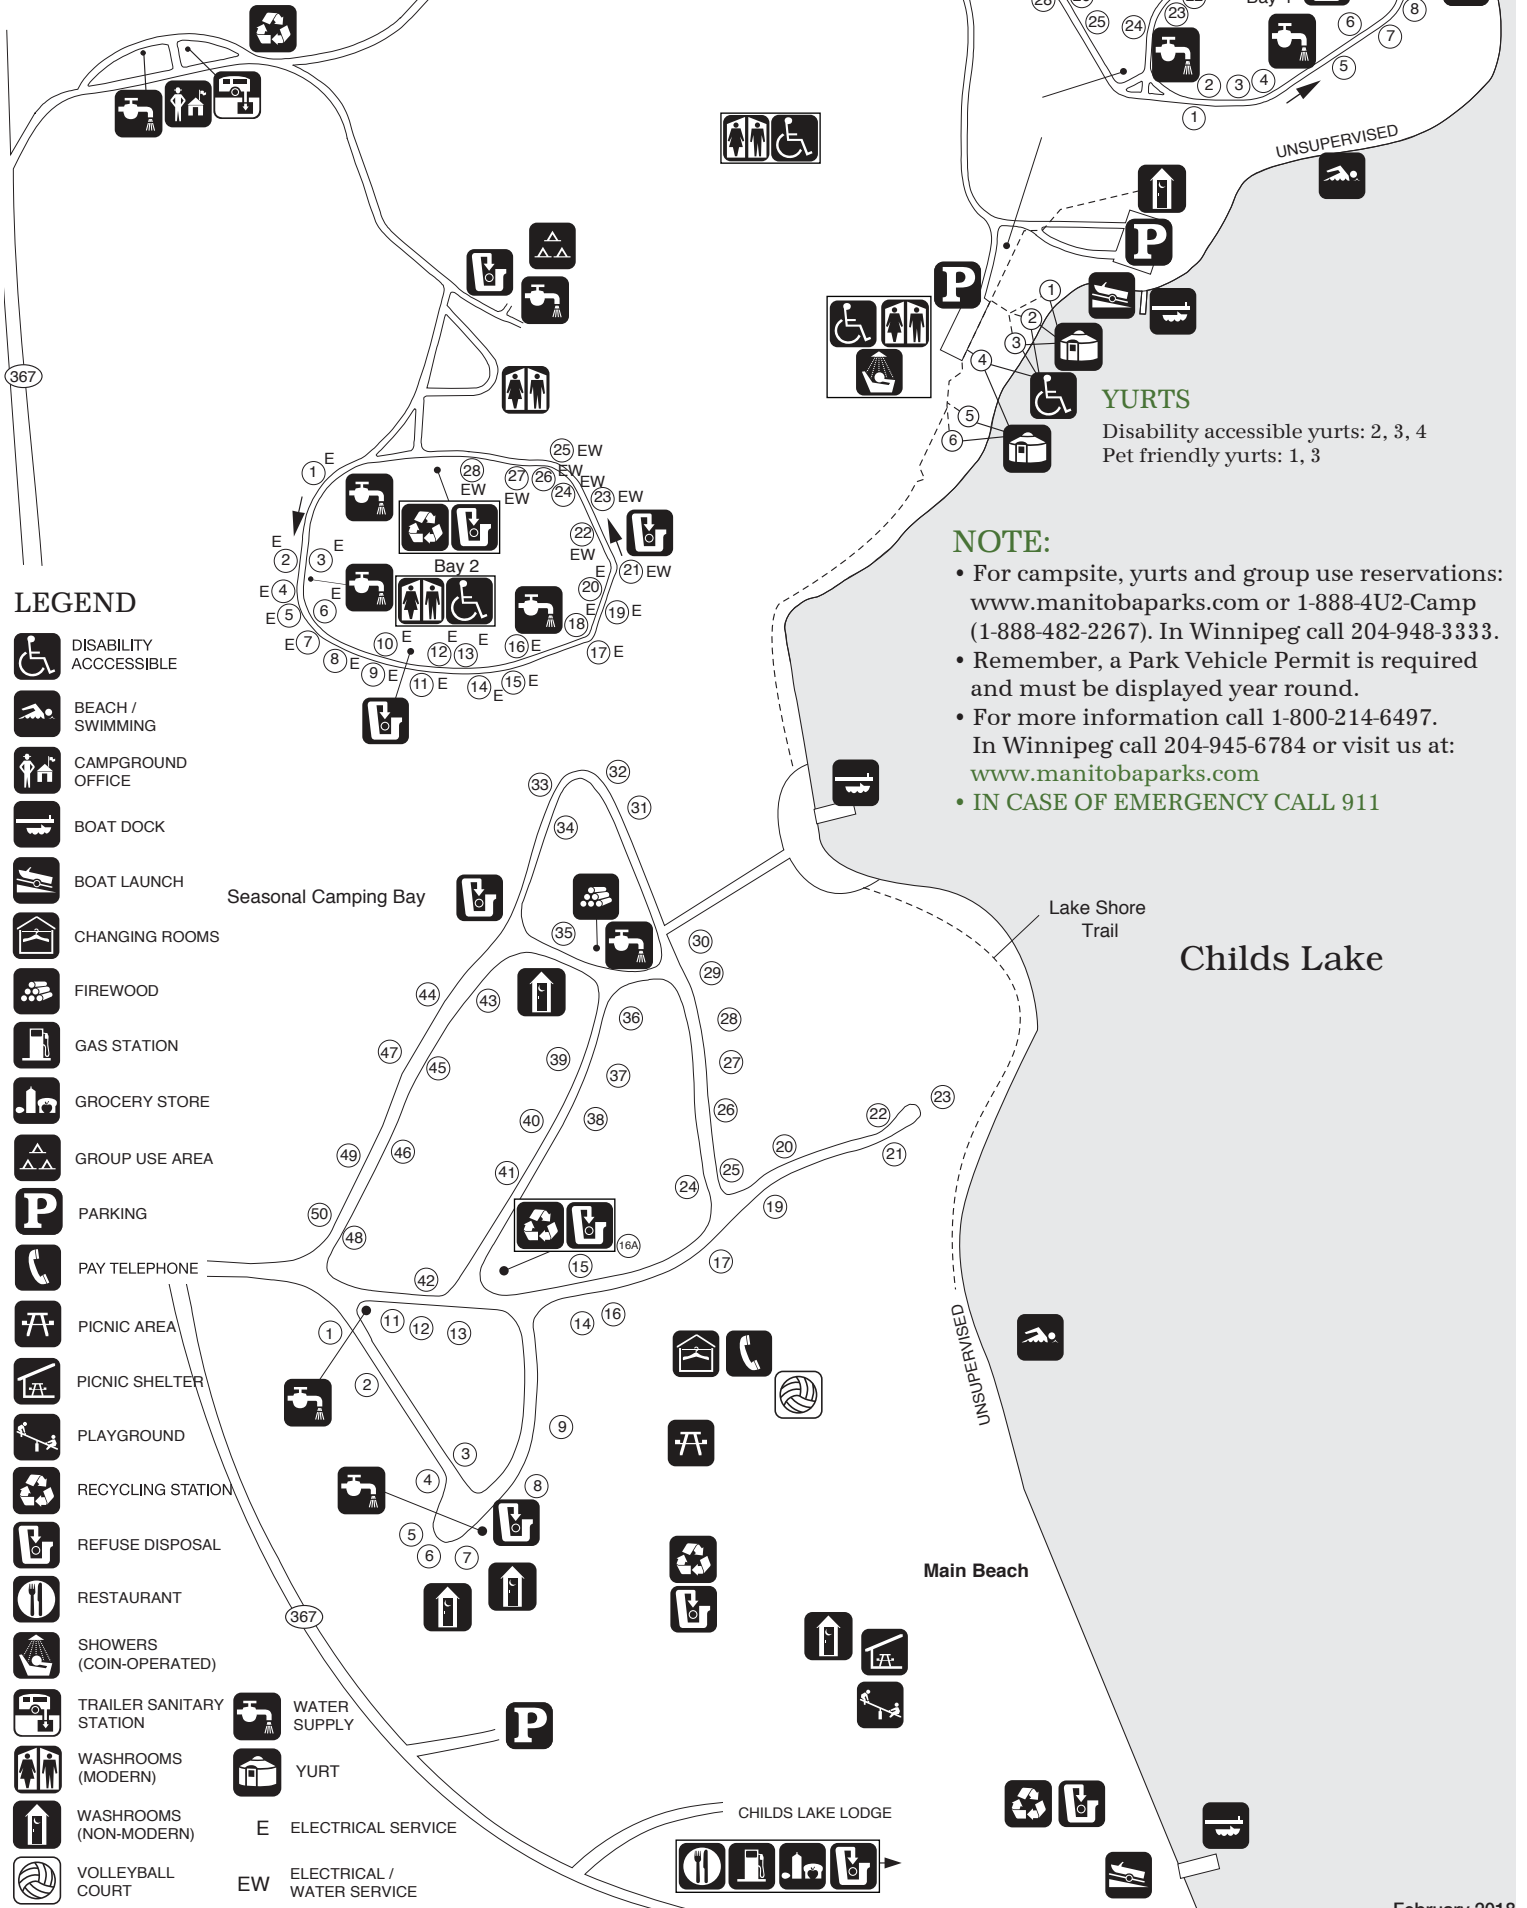

Stay active on the Childs Lake Hiking Trail, a network of loop trails on the west shore of Childs Lake. Mossberry Lake Trail, a multiple use trail between Childs Lake and Blue Lake, is available for hiking, cycling and all terrain vehicles. Please refer to the Mossberry Trail Map for more details. The Shell Valley hiking trail is located 10 kilometres to the west of the campground and has a scenic climb overlooking the Shell Valley.

Located approximately 85 kilometres from Dauphin, Duck Mountain rises in long hills near the Manitoba-Saskatchewan border.

More information on Childs Lake Campground and Duck Mountain Provincial Park is available on request from the park office in Swan River.
