

Asessippi Campground - Road Detour

A detour has been put into place on the main access road to Asessippi provincial park campground and day use area as a result of recent slumping on that section of road. It is anticipated that the detour will be in effect for the entire 2014 camping season.

Boat launch access from the west is still permitted as the road closure occurs east of the boat launch.

For campers coming from the west, continue south on PR 482 to Municipal Road 169W. Travel North for 1.6 km to Municipal Road 132N and travel for .45 km. Turn north and travel 2.5 km to the park access road. For campers coming from the Roblin/Russell area, follow the same route from Municipal Road 169W.

The detour has been signed along the new route, and a map of the area shown below. If campers have any questions or concerns, they should contact the Asessippi Campground Office at 204-564-2473.
