

Campground Tips

- Help prevent the spread of aquatic invasive species. Always “Clean, Drain, Dry and Dispose” when using watercraft or water-related equipment.
- Build no fires except in a designated firepit or use a camp stove. Before leaving make sure your fire is completely out.
- Please! Do not litter.
- Be sensitive to wildlife. Bears can be dangerous and should not be fed. Food must be stored away from your campsite, preferably in a locked vehicle, to avoid attracting hungry animals. Do not store food in your tent.
- The use of insect repellent will add to your comfort.
- Learn to recognize and avoid poisonous plants such as poison ivy.
- In case of injury or illness contact a Campground Attendant or Park Patrol Officer. They can assist you to reach medical help.
- Canoeists and hikers travelling in backcountry areas should advise a friend of their intended destination and anticipated length of trip.
- Backcountry camping is only allowed at designated campsites.
- It is illegal to use or transport elm firewood.
- Moving firewood can spread harmful invasive species and destroy our forests. Protect Manitoba’s trees. Don’t move firewood.
