

CONTAMINATED SOIL TREATMENT FACILITIES IN MANITOBA

Disclaimer

This is a list of licensed soil treatment facilities in Manitoba.

Please note the following:

- 1 Manitoba Sustainable Development makes no guarantee about the soil treatment facilities' operations.
- 2 Soil treatment facilities operate under licences and/or permits from Manitoba Sustainable Development. Restrictions may be implemented regarding the types of soil the treatment facility may receive.
- 3 The proponent is required to contact the soil treatment facility in advance to determine if the facility can/will accept the soil.
- 4 In most cases, the soil treatment facility will require an analysis of the soil in advance. The proponent is required to send this to the soil treatment facility upon request.

If you have questions regarding this list, contact the Contaminated Sites Coordinator at:
